Please describe your question or comment briefly:  
Comment regarding the proposed transfer of electrical power service from Rocky Mt. Power to Fall River Rural Electrical Cooperative. The main item of concern is the maintenance of the time of day option (on peak/off peak). I do not want to lose the thrift and environmental benefit of using less expensive off-peak energy. FRREC customers with whom I have spoken say they never heard of the concept. Please, if the transfer takes place, keep the time-of-day option. It makes sense.
