BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

**IN THE MATTER OF THE FILING OF
ROCKY MOUNTAIN POWER OF ITS
ANNUAL REPORT**

**CASE NO. PAC-E-07-15
MOTION FOR EXTENSION OF
TIME TO FILE ANNUAL REPORT**

COMES NOW Rocky Mountain Power, a division of PacifiCorp (the “Company”), and hereby moves the Idaho Public Utilities Commission (the “Commission”) for an order authorizing an extension of time for filing its annual report. This Motion is based on the following:

I.

Rocky Mountain Power is authorized to do and is doing business in the state of Idaho. The Company provides retail electric service to approximately 67,000 customers in the state of Idaho and is subject to the jurisdiction of the Commission. Rocky Mountain Power also provides retail electricity service in the states of Utah and Wyoming and PacifiCorp provides retail electric service in California, Oregon and Washington as Pacific Power.

II.

Annually the Company is required by the Federal Energy Regulatory Commission (“FERC”) to file a FERC Form 1 detailing financial and operating results for each calendar year.

This total company report is used as the basis for an Idaho-allocated FERC Form 1 report filed with the Commission, which is a condensed version of the FERC Form 1. The Idaho-allocated report is due to be filed as the Company's annual report to the Commission no later than April 18th each year. The Company also makes an annual filing of its regulated results of operations pursuant to Order No. 29708 in Case No. PAC-E-02-03. These results of operations reports include calculations of the Company's revenue requirement as allocated to its Idaho jurisdiction, and in fact, are the source for the Company's allocation factors used to allocate costs among its six jurisdictions. The results of operations are filed with the Commission no later than April 30th each year.

Gathering the information needed to compile the annual results of operations and the data required to compute the inter-jurisdictional cost allocation factors requires significant effort and is a lengthy process. Lag inherent in this collection process and computation of the results of operations allocated to each jurisdiction currently prevents the Company from accelerating the report preparation to a date earlier than April 30th. This annual results of operations report must be completed prior to the Idaho state version of the FERC Form 1 to properly calculate allocated results. Consequently, the Company is unable to prepare the state-allocated FERC Form 1 to provide as its annual report to the Commission by April 18th. In the past, the Company has requested temporary deadline extensions to complete and file its annual report.

The Company now respectfully requests a permanent extension of the filing deadline for its annual report to May 31st each year to allow for the jurisdictional results of operations to be finalized and the subsequent preparation and filing of the state-allocated FERC Form 1.

III.

Service of pleadings, exhibits, orders and other documents relating to this proceeding

should be served on the following:

IV.

WHEREFORE, Rocky Mountain Power respectfully requests the Commission authorize the Company to file its annual report on or before May 31st each year.

Respectfully submitted this 28th day of November 2007.
