Please describe your comment briefly:

Please do not let Rocky Mountain Power increase for more money. With the Stock market hitting very low, just what will happen to the little people of who are struggling now, with having to worry about more bills for this winter. We are ones that will hurt with a VERY small income that only changes the first of each year. We live (three of us) on just over 1,600 a month with high medical bills and two of us are 81 years old and have tried to lower our light bill down only to get really sick and then each time to the Dr. gets beyond our means. It hurts to be threatened with a shut off with only 7 days to pay the bill each month, and the Rocky Mountain blames the PUC for regulating the time set of only 7 days from bill time til pay the bill.

Totally out of line and sometimes impossible to meet because of NO MONEY to pay with. I talked with them some time ago and they were unrelenting and unwilling to listen to me. We do not have long distant calling. Too expensive

→ I made a huge mistake on our income on the information before. Instead of \$16,000 it should be only \$1,600 a month and it is only social Security and Civil Service disability
