On May 28, 2010, PacifiCorp dba Rocky Mountain Power ("Rocky Mountain" or "Company") filed an Application for authority to increase the Company's general rates for electric service by an average of 13.7%. If approved, the Company's revenues for electric base retail rates would increase by \$27.7 million annually. The net amount of actual increase varies by class of customer and usage.

Rocky Mountain serves more than 70,000 customers in southeastern Idaho. The Company provides electric service to more than 1,000,000 customers in Utah, Wyoming and Idaho. The Company owns more than 10,000 megawatts (MW) of generation from coal, hydro, natural gas-fueled combustion turbines and renewable wind and geothermal power. The proposed increase is based upon normalized results of operations for the test period ending December 31, 2009, with known and measurable changes. The Company requests a return on equity (ROE) of 10.6%.
