Please describe your comment briefly:

I am opposed to Rocky Mountain Power increasing rates. With the current economic conditions where many people are barely making ends meet, please don't allow an increase of one more thing that is essential to be increased.

Thank you.

Murray Sears

I want to protest the rate increase requested by Rocky Mountain Power for Idaho residents. In these economical times, this is not something in the best interest of the population. Please deny the rate increase. Thank you.

Please describe your comment briefly:

I disagree with your appeal for a rate increase. Now is a time when people are losing their jobs and struggling to make ends meet. We struggle each month to pay all the bills and provide food for our family - now is NOT the time to ask for a raise!

Please describe your comment briefly:

I already pay over 150.00 a month for my electricity bill, during the winter months it goes up over 200.00 a month. Do we really need to have a rate increase, when the price is already out of control. Please try to find other ways to deal with your costs. When my paycheck doesn't make it to the end of the month, I don't get to give myself a raise, why should you.

Please describe your comment briefly:

In regards to the proposed rate increase for Rocky Mountain Power, I feel that the company should devote more time and resources to the restoration of its customers BPA power credits before it is allowed to do any rate increase. The loss of that credit alone hit customer's wallets significantly a few years ago. I realize that the BPA credit loss was not an increase in rates or revenue for Rocky Mountain Power, however, until those are restored, it is difficult to justify hurting the Idaho economy even more with such a large increase in general rates. Many people cannot afford an increase of such magnitude in a time where they are experiencing such large layoffs or paycuts. Thank you for your time.

Please describe your comment briefly:

I don't believe this rate increase by Rocky Mountain Power is really necessary. They just had a huge increase a couple of years ago when they got rid of the bonnevillie credit discount east idaho customers were getting. Real wages in the state have also been dropping for the last couple of years and this increase will place an unfair burden on most customers. Rocky mountain power has to learn to tighten thier belt just like the rest of us.

Thanks,
Perry Jacks
