Please describe your comment briefly:

I personally understand the need for 'more money' as requested per Rocky Mountain Power, but while their coffers are full and the dividends are high ,the poor working class and unemployed struggle to survive. Please do NOT grant them an increase. Our household has seen nothing but decrease in income over the past four years and we are still honestly trying to function without basic necessities. Don't tell me energy assistance will help we have not been able to receive any because of \$35 over the limit. The last time I could not pay my bill Rocky Mountain told me to 'call you church and have them pay the bill' Rocky Mountain is showing a profit there fore they do NOT NEED the increase

Please describe your comment briefly:

Because short term interest rates are currently near zero percent, Rocky Mountain Power's current return on equity of 5.7% seems more than adequate, even more so given the very real threat of deflation. I recommend the Idaho PUC vote against the proposed rate increase.
