IDAHO PUBLIC UTILITIES COMMISSION

My power bill has already increased over the last year or two. It is to the point we can't even put Christmas lights up anymore. My summer bill is now what my winter bill used to be. Our problem is, our pay check keeps going down & our bills keep getting bigger. We are voicing our opinion & begging you to not increase our power bill more than it already has. It is tough enough to survive now. Please do not increase!

IDAHO PUBLIC UTILITIES COMMISSION

I am extremely concerned over the proposed rate increase. As an electrical monopoly in my area, Rocky Mountain Power has no competition to motivate them to keep their prices down. This proposed rate increase, as I understand it, is not out of a need for improved services or to keep up with inflation - it is to increase the rate of return for investors. ~~What~~ about me as a consumer/customer? Is not my "rate increase" more significant and worthy of consideration than an outside party? Please prevent Rocky Mountain from increasing the burden on its customers by NOT allowing this rate increase. It is enough of a struggle to pay my \$125 - \$215 bill every month as it is.

Name of Utility Company: Rocky Mountain Power
Acknowledge: acknowledge

Please describe your comment briefly:

Rocky Mountain Power wants to raise power rates. In an economy where people are losing jobs, raising our rates will cause harm to many people. This is an area that provides our country with food. If the farmer's costs go up, so does everyone's food prices. Yet Rocky Mountain Power proposes to raise the rates to irrigators by 9.6% Some people are on 'time of use,' being very careful to cut energy use during main energy use times. Those people could have their rates raised 15.6%. These are people who are trying to save energy, and yet their rates are being raised substantially. This is not a good time to raise anyone's rates. But remember, when you raise rates on farmers, you hurt the entire country. Food is important to everyone.
