In response to said request of Rocky Mtn Power
I wonder if they can still read. Maybe they suffer
from dementia that the economy is not getting better

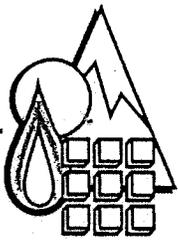

Our Social Security is in danger. Our medical
costs increase with our age. We have always been
proud. I am 84 years old. We are still able
to live in our home. I remember very well the
1930s & I do not want to re live them again.

I fear not only for myself but for my family
of children, grandchildren plus many great grandchildren
Shouldn't every one be aware & prudent. I hope
the government of Idaho & of America can open there
eyes to reality -

Note No because

High unemployment in our area.

No possible increase of income
for Social Security people.

Impending inflation will add
to the financial crisis!

Is it right to increase the income
for some, on the backs of those
who are already down-trodden?
