Please describe your comment briefly:

I'm concerned about the purposed rate increase. That seems to be quite a steep raise. I have not seen a raise for the last 3 years and in fact I was just laid off from my job, so I wonder why we can even entertain a raise of such proportions. I think it would be more fair to purpose a 1 or 2% raise. My power bill already seems to be quite steep. I wonder how come in a state of economic times as we are now in that it can be a justifiable raise. Please reconsider the amount of this increase. I don't know how we can pay the purposed increased.

Thank you for your consideration.

Please describe your comment briefly:

Being 68 yrs old, on stagnant Social Security of \$633.00 pm and rising medicare costs, rising food costs, I cannot afford additional heating costs. This month bill was \$328.16 and this is only the first cold month of the winter. After suffering 3 heart attacks and damage from anti A-Fib meds, I try to stay under the covers most of the day with the temp set at 60. I am supposed to walk and exercise. Too cold. can't walk outside on the snow and ice and no place in Shelley to walk safely. They don't plow or shovel sidewalks here. RMP Co. begins working on a new raise before they get the last one. We all have to cut back, the fat cats should forgo another vacation home this year.
