Please describe your comment briefly:

I feel that the windmill project under consideration will be a great benefit to our state and county. The tax revenues are greatly needed, especially in our local school districts. The local economy will receive a great boost from additional employment for construction and from the many supporting services that the construction will bring to the area. Wind generated electricity is clean and renewable. The electricity generated from this project will be sold to a local utility. The windmills are located on private property and are not close to any residences or popular recreation areas. I strongly support approval of this project.
