I agree with the utility company. I think we have enough wind power. Wind is not efficient. If we make the wind companies competitive, the technology will improve and they will figure out a cheaper way to do things or we won't have it. Wind has to be competitive to make it a viable source of energy. Do not make the utility companies buy the power at outrageous rates because the consumer will pay.

I am against wind energy. I do not want my power bill to go up. I am a mom with 6 children. My husband and I are on a very limited budget. I do not believe that wind energy is a good source of energy. It is not self sustaining. Please do not allow the wind developers to continue hurting us. Thank you, Kae Bowman
