Please describe your comment briefly:

I just read in our local newspaper that RMP is seeking yet another rate hike. This is outrageous! My power bill just went up by \$10/month due to the last rate hike that took effect in Dec. and now they are already seeking another one. This is like hiway robbery. We have no choice in choosing another power company so we just have to keep paying more. I know I'm not the only one who is struggling because of the economy, how can RMP think that this is ok? Many of us already struggle to pay or bills without continuous rate hikes. Enough is enough already!
