IDAHO PUBLIC
UTILITIES COMMISSION

Dear Sir,

We have read with concern about Rocky Mountain Power Company's recent request to increase residential electric rates by 6.1 percent. This increase, if allowed, will be a burden on families already strapped by higher costs of living. Many families who have but a single wage earner and maybe are unemployed, have not had a cost of living raise for at least 2 years and maybe more. Senior citizens, who live on a fixed income have not received a cost of living raise for at least 2 years, due to the Government's using the Department of Labor's Consumer Price Index to measure actual cost of living, which we feel is faulty. We all know the cost of food, clothing, gasoline, propane and other sources of heat, car and home repairs, and medications have all risen substantially in the last 2 years. We urge you to decline this increase to Rock Mountain Power Company. Council the Power Company and other utilities to live within their means, as the average citizen must do to make ends meet.

Sincerely, Ronald and LaRue Curtis
351 Bailey Creek Road
Soda Springs, Idaho, 83276

Since I am on a fixed income with no cost of living increase for Social Security the past two years, high medical bills and everything else going up including food and gas, I can't afford another increase. Regarding public street lighting, that is added to the property tax (which also went up last year as the homeowner's exemption went down). I not only speak for myself but for other senior citizens in the same boat. I vote for NO increase in prices.

Are you kidding me?! Another rate increase? No way. How are people to afford it in this economy! This is craziness. Rate increase equals more people on govt. assistance. Every business owner has had a decrease in their profit margin. RMP shouldn't be an exception. Really?!.....UGH!
