Please describe your comment briefly:

Please consider the rate increase Rocky Mountain Power has asked for. We heat our home with Electricity and use more than the average of 839 Kilowatt hrs per month. Our power bills keep rising and we haven't had a raise at our jobs for 4 years. When we built our home we went total Electric. we were told that we would receive a discount for going all Electric. All we have seen is our bills go up and up. Please consider how hard it is to pay our power bill with the continued price increases. Thanks you for your consideration with this problem.
