My husband is on disability. We live in an economically deprived area, so I can't get a job and my age (64) doesn't help. Therefore it is very hard to make ends meet. We have cut out a lot of things. But if the cost of electricity and gas goes up even higher we will have to cut out some of the important things like; phone and tv (both of which we need to keep in touch with the outside world) and cut down on food, clothing, doctors, electricity, gas, auto + home insurance, so we can pay for the things we can't cut out completely. Please don't raise your rates.

We have 1388 Square Foot home, our bill last month was 310.⁰⁰ thats half of what our mortgage payment is. We have all incandecent lighting, no air, and think this is way out of line. We are also signed up for off hours on week ends and late night. If I had the money I would go door to door and tell Rocky Mountain where to shove it
