RE: PacifiCorp's 2011 Integrated Resource Plan

Please find enclosed the original and nine (9) copies, along with a CD, of PacifiCorp's 2011 Integrated Resource Plan (2011 IRP). Copies of the 2011 IRP are also available electronically on PacifiCorp's website, at www.pacificorp.com.

PacifiCorp submits the 2011 IRP filing in compliance with Order No. 22299, Case No. U-1500-165, dated January 1989; whereby the Idaho Public Utilities Commission (Commission) ordered biennial filings of the electric integrated resource plan. This plan is also submitted to the Commission as the Resource Management Report on the Company's resource planning status. The 2011 IRP contains information outlining how PacifiCorp has addressed the Commission's integrated resource planning requirements (see Table B.2 "Appendix B - IRP Regulatory Compliance").

The 2011 IRP fully complies with the resource planning requirements in the Commission's rules, and the Company respectfully requests that the Commission acknowledge the 2011 IRP in accordance with those rules and fully support the 2011 IRP conclusions, including the proposed action plan. At a later date, the Company will be providing a supplement to this 2011 IRP that will include results of the following additional studies (1) energy efficiency avoided cost study (decrement analysis), and (2) additional Energy Gateway transmission analysis.
