Please describe your comment briefly:

Honorable Commissioners once again you have to rule on another rate case for Rocky Mountain Power I would ask that you postpone moving on this latest Rocky Mountain rate case until the issues still pending in the State Supreme court Concerning the last rate case are resolved. Further more I feel as I testified in the last rate case that there should be time between rate cases to allow rate payers to adjust their budgets to any new rates that may be imposed on them. I also feel that as long as Rocky Mountain thinks that they can get some gain out of these yearly rate cases they keep filing rate cases every year. To me it is like going to a well and drawing a bucket of water if you draw only a half bucket of water you will just keep drawing water from the well until you draw all that you want. But in this case it seems that you can not quench Rocky Mountain's thirst for every last dollar they can take from us rate payers. All that I ask from the commission is to look at this latest rate case with this in mind that as long as Rocky Mountain thinks they can get half of what they want in every rate case they will always be coming back to the well for more. Thank You and your Staff for your service to me Tim Shurtz
