Gentlemen:

I am a concerned citizen regarding the price hike that Rocky Mountain Power is asking for. We are on the level plan and our last increase put us at \$231 a month all year long. I think if it were to go any higher, we would not be able to meet our bills. We have my husband's retirement from school teaching and our Social Security as our income. We don't really get pay raises with the economy being as it is.

We would really appreciate it if you would be able to deny them this pay raise.

Sincerely,

Franklin Mahoney

Re: Rocky Mountain Power

To Whom It May Concern:

I am a resident of Bonneville County. I have noticed that my power bill has continued to increase over the course of the past year and that Rocky Mountain Power has already had two raises this year, and are seeking a third.

In this economy, why are they being allowed to do this? We are already struggling to pay our mortgage and just keep the utilities paid, and many of my friends aren't able to feed their families, let alone afford power hikes. Like many, many other Idahoans, unemployment is a huge issue. Our income has decreased while the cost of living and taxes are on the rise. Utility and other expenses raising isn't helping any.

I am writing to request that you do all within your power to help decrease our utility costs. America needs help right now, and it needs to start at home with helping avoid higher rate hikes. We have done all we can to cut our budget. Please consider this strongly. Thank you for your time.

Sincerely,

Catherine Nielson

I am writing this letter
concerning the Rocky Mountain
power rate increase.

I am a RMP customer that
is asking you to NOT increase

Rates again since we just had
one in January. The times
are already hard to stretch
money as far as it will go.

If the rate goes up again
it starts to put us in the hole.
please please consider all
concerns of the people.

Thank you
