Address: po box 134  
bellevue ID, 83313

Name of Utility Company: Idaho Power  
Acknowledge public record: True

Comment: Why does this state drag it's feet on so many subjects that have benefit to the people and our land? Is our state government as corrupt as those in impoverished countries? Seems so to me.

Solar power. It's the OBVIOUS WAY OF THE FUTURE! Clean, inexpensive and getting more so. Go visit Maui. Almost every house has solar panels on the roof. The demand there has made it less expensive for us here ( supply and demand. )

Take a trip out of Idaho and see what the rest of this country is doing.

You might think you are cowboys. You are still living in caves.
