Address: 1140 S Colorado LN 134
Boise Idaho, 83706

Name of Utility Company: Idaho Power
Acknowledge public record: True

Comment: To the Idaho PUC: Please know I strongly favor retention of the current 20-year contract duration for solar power development in Idaho. I support massive new solar power development, which would be beneficial to the Idaho economy and would be a far cheaper, cleaner, and wiser option than a policy that would encourage continued reliance on filthy coal burning. Please resist Idaho Power's attempt to reduce the duration of the solar power development contracts. -- Jerrold Francis Jones Jr.
