Name of Utility Company: Rocky Mountain Power Acknowledge public record: True

Comment: I would ask the commission to deny Rocky Mountain Power modification to the ECAM. Idaho did not ask to become part of the public energy conglomerate. It even is not reaping any benefit from the wind farms which have sprung up overnight to supply customers over in California. They are using resources in Idaho to supply other States, and then fulfilling shortfalls in Idaho buying from other markets? This sounds like a very well orchestrated ponzi scheme.
