Comment_description: I appose AVISTA proposed Natural Gas increase of 2.5% recommended to be implemented 9/15/03.
Grounds:

Natural Gas behavior in 2003 YTD and expected Winter 2003 conditions do not favor a similar exponential rise in NG cost. Unless the PUC did not grant relief from the 2002 impact, the current NG indicators advise and storage clearly show that NG will follow more traditional cost trends in 2003.
