Public Utility Comm.

Arista has again targeted the most vulnerable citizens of Idaho.

We, who pay your salaries are asking you to do the right thing and for once be fair - think of those of us who are living well beneath the poverty line and not side with the "fat cats" in a corporation that never, ever rework their budgets to absorb rising expenses like we have to. Be fair & think of Idaho citizens & what is best for us!!!

I have personally known of some elderly & children who experience cold & hunger. An elderly who huddled under blankets, to keep warm, no hot food because of electric cost of heating it - ended up with hyperthermia before discovered.

You have to accept responsibility for these situations - not for lining pockets of the rich corporations. Earn your salaries & work for Idaho!!!
