Please describe your comment briefly:

Please don't approve Avista's Idaho rate increase requests.

Enough is enough already!

Every time they ask they get. The rest of us can't ask for a 14.2% wage increase!

It seems like several times per year they want more more more!!

And they always get it. What's their excuse this time ? 'Low water / snow levels.. We had record snow this past winter.

The price of oil is falling.

It's time their stockholders take the hit-not the rest of us. Maybe their CEO's can take a pay cut!!

Maybe they can stop advertising and giving 'our' money away to their favorite causes.

Thanks for your consideraton

Matt.....

Not this time!

Please describe your comment briefly:

Avista has applied for a rate increase for its Idaho customers of either 14.2%, 13.9%, or 15.7%, depending on which of their figures you go by. I know energy costs have risen, but also the per-barrel price of oil has dropped from its high. As consumers we are all having trouble meeting the rising costs of everything, not just gas and electric costs. Everyone has to tighten their belts, including the companies who provide the services. I hope you will take this into consideration when deciding whether to approve their request.
