Please describe your comment briefly:

I do not see any sense in raising both the Natural Gas and Electric to customers to help with the costs associated with efficiency services to customers. I am having to permanently close my store because I cannot afford to go through another winter with the high Avista bills. If the prices keep going up there are just going to be more and more people applying for energy assistance. I am a pay station for Avista Utilities through Western Union. I see so many people that are having problems trying to make their high energy bills every day and it is just getting worse. I have lost a lot of money in the stock market, I should have invested my money in Avista stock and I'd be making money instead of all the money I lost.

regarding schedules 91 and 191, NO to a rate hike, Idahoans can't afford this!
