Name of Utility Company: Avista
Acknowledge public record: True

Comment: We go through this sort of thing with Avista nearly every year.

"(C)hanges in...cost of natural gas the Company acquires" is a direct result of the policies in Washington.

Ours is a country rich in energy resources.

Avista is the only source gas and electric for most of us. Many of us are just barely making do--the people in Washington are seeing to that.

Raising rates won't do anyone a bit of good if they can't afford to pay for it.

Avista should take an ethical and moral stand by advocating for its users--go to Washington, if need be, and speak out against shutting down coal plants and other sources of power and energy.
