IDAHO PUBLIC  
UTILITIES COMMISSION

ref: Schedule 191, "Energy Efficiency Rider Adjustment"

As the Commission will be reaching a decision regarding this request for an increase of 1.7 percent, herewith are stated by me, Virda Nunn, a request for denial of Schedule 191 for the following reasons:

1. We elderly did not receive any Cost of Living increase from Social Security.
2. Our foods are already increased in prices, mostly toward costs of our wars.
3. All CEO's receive Golden Umbrella payments if/when he/she leaves.
4. Utility companies have Boards of Directors who a) are on many Boards and b) receive money for being a Board member.
5. Board members on numerous Boards, in my opinion, cannot possibly be able to make accurate, overall, State-individual-public decisions.
6. When we, the State individuals, get no Cost of Living increase —  
Utility companies should tighten their belts along with us.

Thank you,

Virda Nunn
