Comment_description: Vote in favor of Co. stating case before PUC late summer or early fall. People aren't paying attention right now, so the CO. can sneak in their rate hikes before customers can voice a complaint or comment.

Comment_description: I do not feel the time of year for application is of any consequence. I do feel, however, that gas rates have soared, and that the utility companies need to tighten their belts as has most other private companies. CEO's are taking salary cuts, as are other executives. Maybe the Intermountain Gas Co. should consider every possible decrease from within, if they haven't already, and give the consumers a break. Many people simply cannot pay these high rates.
