IDAHO PUBLIC
UTILITIES COMMISSION

re: Intermountain Gas rate hike

Dear Friends on the Commission:

A 27.4% increase is obscene. This proposed increase can be easily justified on the letterhead paper of Intermountain Gas but to be considered conscionably justifiable the management staff of Intermountain Gas would necessarily possess consciences. It is a pity they do not.

Please give serious attention to their figures. As our servants we certainly do depend on you to comprehend a truly justifiable resolution to this request.
