Message/Text area within text box Re: Filing My Attachments to My
Complaint Letter

The point of this fax is to let you know I'm still working on my attachments as fast as I can and that when finished, I'll promptly send them to you also - no official deadline legally exists regarding attachments (per you Mr Howell) - so, therefore, you cannot arbitrarily impose unreasonable, biased, punitive deadlines on me.

Also - we did not even discuss your "so-called" deadline and obviously then, there was never any agreement between us, since we never even talked about June 29th or June 30, 2006 being a deadline.

Commissioners

Dear Mr. Howell:

Re: Filing My Attachments
to My Complaint Letter

I am still in the process of
completing my attachments, etc.
and am going to submit them
as soon as it is possible.

I was told by you, Mr. Howell, that
there is no formal P.U.C. deadline
established regarding attachments and, as
such, there cannot be a deadline for me
to file my attachments.

Please be assured that I am
diligently working on this matter. I did
not agree with any thought you might
have had that June 29, or June 30, 2006
was a deadline regarding my attachments.

P.S. We never even
discussed your
so-called deadline.

Sincerely,
Gene Robinson
