DATE: JANUARY 25, 2013

SUBJECT: INTERMOUNTAIN GAS COMPANY'S APPLICATION TO SELL LNG,
CASE NO. INT-G-13-02

On January 23, 2013, Intermountain Gas Company applied for authority to sell LNG from its Nampa LNG facility to non-utility customers at market-based rates, to use the accounting treatment specified in the Application, and to share net margins on non-utility sales with utility customers on 50/50 basis. The Company's Application requests a March 10, 2013 effective date. However, the Company has advised Staff that it consents to having that date suspended to allow the parties adequate time to process the case. The Company also requests Modified Procedure.

Staff recommends that the Commission suspend the proposed effective date under *Idaho Code* §§ 61-622 or 61-623 and process the case by Modified Procedure with comments due March 18, 2013.

COMMISSION DECISION

Does the Commission wish to suspend the proposed effective date and issue a Notice of Application and Modified Procedure setting a March 18, 2013 comment deadline?
