)	ORDER NO. 33099

On August 8, 2014, Intermountain Gas Company (the "Company") filed its annual Purchased Gas Cost Adjustment ("PGA") Application and requested a Commission Order, under *Idaho Code* §§ 61-307 and 61-622, to institute new rate schedules that will increase its annualized revenues by \$6.7 million (about 2.64%). The Company asks that the Commission process the Application by Modified Procedure, and that the new rates take effect October 1, 2014.

NOTICE OF APPLICATION

YOU ARE HEREBY NOTIFIED that the PGA is used to adjust rates to reflect annual changes in the Company's costs to buy natural gas from suppliers—including transportation, storage, and other related costs. *See* Order No. 26019. In summary, this PGA Application requests the following changes.

YOU ARE FURTHER NOTIFIED that with this Application, the Company seeks to pass-through to each of its customer classes changes in gas-related costs resulting from: (1) transportation costs billed to the Company by Northwest Pipeline GP ("Northwest" or "Northwest Pipeline"); (2) an increase in the Company's weighted average cost of gas ("WACOG"); (3) an updated customer allocation of gas-related costs under the Company's PGA provision; (4) the inclusion of temporary surcharges and credits for one year relating to natural gas purchases and interstate transportation costs from the Company's deferred gas cost accounts; and (5) benefits resulting from the Company's management of its storage and firm capacity rights on various pipeline systems. The Company also seeks to eliminate the temporary surcharges and credits included in its current prices during the past 12 months, pursuant to Case No. INT-G-13-05.

NOTICE OF APPLICATION
NOTICE OF MODIFIED PROCEDURE
ORDER NO. 33099

YOU ARE FURTHER NOTIFIED that the Company says the proposed changes would not affect its earnings, but would result in an overall price increase for its customers. More specifically, residential customers using gas for space and water heating would see a \$1.89/month (3.81%) average increase, customers using natural gas only for space heating would see a \$1.40/month (3.64%) average increase, and commercial customers would see a \$0.31/month (0.15%) average increase.

YOU ARE FURTHER NOTIFIED that the Company says its proposed price changes incorporate all changes in costs relating to the Company's firm interstate transportation capacity including, but not limited to, any price changes or projected cost adjustments implemented by the Company's pipeline suppliers as well as any volumetric adjustments in contracted transportation agreements which have occurred since the Company's last PGA filing, Case No. INT-G-13-05.

YOU ARE FURTHER NOTIFIED that the Company proposes increasing the WACOG from the currently approved \$0.37341 per therm to \$0.39482 per therm. The Company says while there are significant shale gas reserves, modest improvements in the economy and an increase in natural gas-fired electric generation have increased demand and placed upward pressure on natural gas prices. The Company notes, however, that natural gas prices remain much lower than they were a few years ago.

YOU ARE FURTHER NOTIFIED that the Company says it has entered into fixed price agreements to lock-in the price for significant portions of its underground storage and other winter "flowing" supplies.

YOU ARE FURTHER NOTIFIED that the Company seeks to pass through to its customers the benefits that will be generated from the management of its transportation capacity totaling \$3.9 million as outlined on Exhibit No. 7. The Company also proposes temporary price adjustments for the 12-month period ending September 30, 2015, that would allocate to customers the fixed, variable, and lost and unaccounted-for gas costs from the Company's deferred Account No. 186 balance. The Company notes that pursuant to Order No. 32793, its deferred variable gas cost credits included those associated with liquefied natural gas (LNG) sales from the Company's Nampa, Idaho facility.

YOU ARE FURTHER NOTIFIED that the Company says the proposed overall price changes reflect a just, fair, and equitable pass-through of changes in gas-related costs to the Company's customers. The Company says it has notified customers about the Application and

price changes through a formal Customer Notice and a Press Release, and that it has made the Application available to the public on its website at www.intgas.com.¹

YOU ARE FURTHER NOTIFIED that the Application and supporting work papers, testimonies and exhibits have been filed with the Commission and are available for public inspection during regular business hours at the Commission offices. The Application and testimonies are also available on the Commission's web site at www.puc.idaho.gov. Click on the "File Room" tab at the top of the page, scroll down to "Gas Cases" and then click on the case number as shown on the front of this document.

YOU ARE FURTHER NOTIFIED that all proceedings in this case will be held pursuant to the Commission's jurisdiction under Title 61 of the Idaho Code and specifically *Idaho Code* § 61-502 and 61-622. The Commission may enter any final Order consistent with its authority under Title 61.

YOU ARE FURTHER NOTIFIED that all proceedings in this matter will be conducted pursuant to the Commission's Rules of Procedure, IDAPA 31.01.01.000 *et seq.*

NOTICE OF MODIFIED PROCEDURE

YOU ARE FURTHER NOTIFIED that the Commission has determined that the public interest may not require a formal hearing in this matter and will proceed under Modified Procedure pursuant to Rules 201 through 204 of the Idaho Public Utilities Commission's Rules of Procedure, IDAPA 31.01.01.201 through .204. The Commission notes that Modified Procedure and written comments have proven to be an effective means for obtaining public input and participation.

YOU ARE FURTHER NOTIFIED that the Commission has not scheduled public informational workshops in this matter. However, if customers request that Staff conduct a workshop, or if numerous public comments are received, one or more workshops may be scheduled. Members of the public will be notified if any workshops are to occur.

YOU ARE FURTHER NOTIFIED that any person desiring to state a position on this Application may file a written comment in support or opposition with the Commission **no later**

¹ Commission Rules 125.01.c and 125.04 state that the notice and press release must say the application "is available . . . at the offices of both the Commission and the utility. . . ." Staff reports that the Company does not make a physical copy of its Application publicly available at its offices because the Company's offices are not open to the public. We find the Company's posting of the Application on its website to substantially comply with the rules' requirement of having a copy of the Application publicly available at the Company's office.
