Subject: Proposed rate increase by intermountain gas

I am writing to voice my opinion that I oppose the proposed rate increase by intermountain gas. The price of natural gas itself has dropped in recent years and this proposal is absurd price gouging of customers that have no other choice for winter heating needs than intermountain gas. Please do not approve the proposed rate increase.

Name of Utility Company: Intermountain Gas

Comment: My husband and I are not in favor of the gas company's proposal to raise rates on people who only use space heating.

If there is a rate hike it should be across the board at the same rate for all users.

We are thinking about changing how we heat our home.
