Boise, ID 83720-0074

Re: DOCKET NO. 31-2101-0701

Dear Commissioners:

I am writing to request that you hold a public hearing about the proposed changes to the Utility Customer Relations Rules. I am a resident of Idaho ~~and a member of the Idaho Community Action Network (ICAN)~~. In 2004, ICAN petitioned the Public Utilities Commission to make a number of changes to the Customer Relations Rules. The changes to the Rules that the PUC is considering include one of the changes that ICAN proposed, prohibiting shutoffs on Fridays.

I think that members of the public should have an opportunity to address the Commission about this Rule change. I am concerned about a proposed change to the Rules that would allow utilities to email shutoff notices to customers. I also think that the Commission should make other changes to the Rules to make them stronger and protect utility customers more effectively.

Utility companies had an opportunity to meet with Commission Staff this summer through workshops in June and July. I think that the Commission should give members of the public, the consumers who will be affected by these rules, a chance to speak with the Commission about the proposed changes to the Rules as well.

Sincerely,

*Alex Vuittone*

Re: DOCKET NO. 31-2101-0701

Dear Commissioners:

I am writing to request that you hold a public hearing about the proposed changes to the Utility Customer Relations Rules. I am a resident of Idaho and a member of the Idaho Community Action Network (ICAN). In 2004, ICAN petitioned the Public Utilities Commission to make a number of changes to the Customer Relations Rules. The changes to the Rules that the PUC is considering include one of the changes that ICAN proposed, prohibiting shutoffs on Fridays.

I think that members of the public should have an opportunity to address the Commission about this Rule change. I am concerned about a proposed change to the Rules that would allow utilities to email shutoff notices to customers. I also think that the Commission should make other changes to the Rules to make them stronger and protect utility customers more effectively.

Utility companies had an opportunity to meet with Commission Staff this summer through workshops in June and July. I think that the Commission should give members of the public, the consumers who will be affected by these rules, a chance to speak with the Commission about the proposed changes to the Rules as well.

Sincerely,

Idaho Public Utilities Commission
