RE: Citizen's Telecommunications of Idaho's Application for a broadband investment tax credit

Mrs. Jewell,

On April 17, 2007, Citizens Telecommunications of Idaho filed a request for a broadband investment credit for investments made during 2006 totaling \$318,497.63. On June 12, 2007 the Commission issued order No. 30341, in case No. CTC-T-07-02, granting Frontier's application.

Since submitting its original application Frontier identified additional investments made in 2006 that qualify for the broadband tax credit. The list of these additional investments is included with this filing as attachment No. 1.

Frontier Communications requests that the Commission treat this filing as a supplement to the Company's original filing and approve the additional investments listed in Attachment No. 1.

Please find enclosed the original and 8 copies of Citizen's Telecommunications of Idaho, dba Frontier Communications of Idaho's supplemental application for Commission Determination of Qualified Broadband equipment.

If you have any questions, please contact me.

Sincerely,

Ingo Henningsen  
Manager, Government and External Affairs

**Supplement to Application for Commission Determination of Qualified Broadband Equipment**

Pursuant to Commission Order No. 28784, in Case No. GNR-T-01-10, Citizens Telecommunications Company of Idaho submits the following information as a supplement to its original application, filed on April 17, 2007 and approved by the Commission by order No. 30341, in Case No. CTC-T-07-02 dated June 12, 2007. The Company requests that the Commission determine that the additional subject installed broadband equipment also qualifies for investment tax credit under Idaho Code § 63-3029I.

**Name and address of applicant:**

Citizens Telecommunications Company of Idaho  
201 Lenora Street  
McCall, ID 83638

Citizens Telecommunications Company of Idaho is a telecommunications carrier.

Questions and notification of action regarding this application should be addressed to:

Ingo Henningsen  
Manager, Government & External Affairs  
P.O. Box 708970  
Sandy, Utah 84070-8970  
(801) 274-3127

Area where equipment is installed in Idaho: Aberdeen, McCall, Cascade, Donnelly, and Homedale.

Type of broadband service offered to the public: Asymmetrical Digital Subscriber Line (ADSL)

Network transmission rate: Up to 512Kbps send and 3 Mbps receive

Specific Equipment: See Attachment No.1

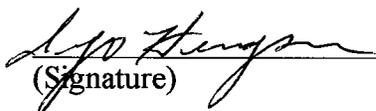

Installation dates: January 2006 – December 2006

Number and Percentage of customers: Broadband is now available to approximately 18,500 Frontier's Idaho customers. This is over 87% of the total customer base.

**Certification Statement**

I certify that I, Ingo Henningsen, have read the applicable statutes for broadband investment income tax credit and I believe that the subject broadband equipment qualifies for the tax credit under *Idaho Code* § 63-3029I.

Date: 07/06/07
