BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF THE JOINT
PETITION OF CUSTER TELEPHONE
COOPERATIVE, INC. AND MIDVALE
TELEPHONE EXCHANGE, INC. FOR
AMENDMENT OF THEIR RESPECTIVE
CERTIFICATED SERVICE AREA
BOUNDARIES

Case No.: CUS-T-07-02

**JOINT PETITION FOR AMENDMENT OF
CERTIFICATED SERVICE AREA
BOUNDARIES**

Custer Telephone Cooperative, Inc. (“Custer”) and Midvale Telephone Exchange, Inc. (“Midvale”), hereby petition the Commission for an Order approving this Joint Petition for Amendment of Certificated Service Area Boundaries. In support whereof, Custer and Midvale (jointly “Petitioners”) state as follows:

1. Custer is a mutual, non-profit telephone corporation organized under the laws of the State of Idaho and exempt from regulation by the Public Utilities Commission (“Commission”). Custer’s principle place of business is in Challis, Idaho and it maintains central offices in Challis, May, Elk Bend and Clayton. Custer provides basic local exchange telecommunications services, MTS, WATS, access services to inter-exchange carriers, special access services, broadband and other telecommunications services that its customers may from time to time request or require.

2. On May 16, 1989, the Commission issued Order No. 22519 granting Custer's application for a certificate for an exclusive service area for telecommunications service pursuant to Idaho Code 62-615 (since amended), and simultaneously issued Custer Certificate No. 308, a copy of which is attached as Exhibit A to this Joint Petition.

3. Midvale is a Title 61 regulated telephone corporation organized under the laws of the State of Idaho, with its principal place of business in Midvale, Idaho. Midvale provides basic local exchange and other telecommunications services within the State of Idaho pursuant to a certificate of public convenience and necessity issued by this Commission. Midvale's certificated service area includes Yellow Pine, Warren, Warm Lake, Midvale, Lakeview, and Stanley, Idaho. Midvale's current certificated service area is described in the Commission's Third Amended Certificate No. 254, a copy of which is attached as Exhibit B to this Joint Petition.

4. Custer's and Midvale's certificated service areas are contiguous to one another near Sunbeam, Idaho which is downstream from the town of Stanley along the Salmon River. Custer and Midvale are members of Syringa Networks, LLC ("Syringa"), which is a non-regulated telecommunications company. Custer and Midvale each participated in construction of portions of Syringa's SONET fiber optic ring to provide broadband connectivity to rural Southern Idaho. As part of the coordination of their respective construction responsibilities to complete the SONET ring, Custer and Midvale agreed to a meet point that was within Midvale's certificated service area west of Sunbeam.

5. The SONET ring facilities were completed by Custer and Midvale in November 2003. At that time, there were no Midvale customers in the area between Custer's certificated boundary and the meet point. It was Custer's and Midvale's intent then that they jointly seek an amendment of their respective boundaries to adjust Custer's certificated area to encompass its

facilities up to the agreed-upon meet point, because Custer would be better able to serve new customers in that area due to the proximity of its facilities. The purpose of this Joint Petition, then, is to complete the contemplated amendments of the Petitioners' respective service areas.

6. A map showing the area proposed to be added to the Custer certificated service area and removed from the Midvale certificated service area is attached hereto as Exhibit C.

7. Explicit legal descriptions describing the service area boundaries for Custer and Midvale if this Joint Petition is granted are attached as Exhibit D and Exhibit E. A compact disk containing the proposed modified legal descriptions in Microsoft Word format is being submitted contemporaneously with this Joint Petition.

8. The requested Certificate amendments will not affect the service area boundaries of any other certificated telecommunications carrier, and will not injure or interfere with the operation of any line, plant or system of any other public utility already constructed. The subject area is not currently unserved or an uncertificated area. The six residential customers in the subject area of this Joint Petition currently are being served by Custer.

9. Granting of this Petition will not require Midvale to construct or expand any facilities. Consequently, Midvale will not require any financing for construction or expansions if this Petition is approved.

10. The Petitioners request that all notices and communications concerning this Petition be directed to the following individuals at the addresses given below:

WHEREFORE, the Petitioners respectfully request an Order of this Commission granting the amendments of the Petitioners' respective Certificates to specifically define their respective service areas as described in Exhibit D and Exhibit E attached hereto, and granting such further relief as the Commission deems just and reasonable.

REQUEST FOR MODIFIED PROCEDURE:

Because this Joint Petition seeks a minor boundary change, does not involve an expansion of their respective service areas into unserved or uncertificated areas, does not involve a transfer or change of either Petitioner's facilities or customers, and will not affect the service provided to any customer of either Petitioner, the Petitioners further respectfully request that their Joint Petition proceed under the Commission's Rules 201 through 210 for Modified Procedure.
