Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges, in addition to any applicable charges due for service which has been furnished.

In the case of service for which the minimum contract period is one month, termination will require that charges due for the balance of the minimum period be paid.

In the case of directory listings where the listing has appeared in the directory or where a non-listed or non-published listing has been properly omitted, the charges are due to the end of the directory period, except that in the following cases charges will be continued only to the date of the termination of the extra listing or proper omission with a minimum charge of one month.

Service may be terminated after the expiration of the initial contract period, upon the Company being notified and upon payment of all charges to the date of the termination of the service.

3. Termination of Service By The Company

For any of the following reasons, the Company may discontinue service upon at least 10 days' written notice or cancel an application for all services without incurring any liability. Separate accounts for the same Customer are also subject to this provision.

In the event that a Customer's bill remains unpaid after more than thirty days following the rendition of the bill.

Where the Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

The Company, by written notice to the Customer, may, without incurring any liability, cancel or suspend the provision of service or equipment for the following reasons: non-payment of any sum due to the Company from the Customer, whether pursuant to service offered under this price list or otherwise; or as a result of actions of a government agency which forces discontinuance of the provision of service or equipment; or for violation or threatened violation of any of the terms or conditions of this price list by the Customer or authorized user; or if the Customer becomes insolvent or bankrupt, or makes a general assignment for the benefit of creditors or as otherwise permitted by this price list. GENERAL RULES AND REGULATIONS (Continued)

I. PAYMENT FOR SERVICE AND FACILITIES

The subscriber shall pay for service and facilities monthly in advance, except all various units of government, and shall pay for Moves and Changes when billed. Failure to receive a bill does not relieve the subscriber of the responsibility for payment in accordance with the provisions set forth herein.

All bills for service are due and payable at the office of the Company on or before the fifteenth day following the post marked date of the statement of the month in which the bill is rendered.

J. SPECIAL SERVICES AND FACILITIES

Special services and facilities not ordinarily used in the furnishing of telephone service and not otherwise provided for by the Price List schedules of the Company may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Company. Special services are provided for each individual application as a custom-engineered system to satisfy and provide for the needs of that customer. Applicable charges will be determined by the Company for each individual system. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Company, the Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber.

K. LIABILITY OF COMPANY

The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

L. CUSTOMER NOTICE

The Company will give at least 10 days notice to customers and the Idaho PUC before increasing rates or other changes. The notice to customers will be either individual notice or a public notice in the newspapers in Company's Idaho service areas.

By briefly depressing the hookswitch, the user will be connected to the second caller while holding the first, subsequent depressions of the hookswitch will allow the user to alternate between callers.

Call Forwarding - permits transfer of all incoming calls automatically to any dialable number. OBLIGATION OF COMPANY (Cont'd)

Caller ID information can be used only to market goods and services to existing customers, and only to market goods and services to existing customers that are directly related to those the existing customer already uses.

Notification of illegal procedures having been given herein, the Company shall be held harmless by all parties in cases where subscribers of the Company use this information in an unauthorized manner, as described above.

DEFINITIONS

Account Code Forced – this feature prevents the use of a telephone by unauthorized individuals. A code must be dialed which is recognized by the system, thereby allowing the use of the telephone. If an invalid code is dialed, then reorder tone is returned to the subscriber.

Anonymous Call Rejection – allows the subscriber to reject private numbers. With this service, if the caller does not allow their number to be recognized, they will hear a recorded announcement telling them “The number you have reached is not accepting calls from private numbers.” To activate this service, dial *77 or deactivate, dial *87.

Automatic Callback - allows the subscriber to automatically return a call to the number of the phone that last called. By dialing the access code (*66) push-button the callback feature will automatically dial the last calling number. The feature can be deactivated by dialing (*86) push-button.

Call Forwarding Busy - allows a subscriber to have all calls (incoming or intragroup) forwarded to a predetermined alternate number when the called number is busy. The subscriber can activate the feature by dialing (*90) push-button and deactivate the feature by dialing (*91) push-button. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the subscriber will be billed for each call diverted.

Call Forward No Answer - allows a subscriber to have all calls (incoming or intragroup) forwarded to another number if the subscriber does not answer after a preset number of ringing cycles as set by the Company. The subscriber can activate the feature by dialing (*92) push-button and deactivate the feature by dialing (*93) push-button.

DEFINITIONS (Continued)

Call Forward Busy/No Answer - allows a subscriber to have incoming calls (those which originate outside the group) forwarded to another number if the subscriber does not answer after a preset number of ringing cycles which are set by the Company. The subscriber can activate the feature by dialing (#92) push-button and deactivate the feature by dialing (#93) push-button.

Call Pick Up Directed - allows a subscriber to answer a call directed to another line which has been answered or is ringing by dialing a preset access code (#60) and the telephone number of the line to be answered. Both the originating line and the line to be answered must be equipped with the feature.

Caller ID - Name and Number - allows for the automatic delivery of a calling party's name and telephone number (including nonpublished and nonlisted telephone numbers) to the called customer, after the first ring, but before the call is answered. The name and number are displayed on customer provided equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, omissions or mistakes. The Company's sole and obligation shall be to reasonably correct errors in names when notified in writing of such errors.

The calling name and number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

Caller ID information transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the subscriber from the number delivery services subscriber.
