Ref: Universal Service Funds

Our Bonneville County Sheriff's Office uses Edge Wireless cell phone service as its primary phone service for all mobile law enforcement operations, including our Jail. Every law enforcement officer is assigned an Edge Wireless cell phone to conduct the business of the Sheriff. We rely on Edge Wireless to provide service in all areas of our County, including rural areas that now have limited and/or spotty service for our emergency operations.

I encourage you to provide Universal Service Funds to Edge Wireless so they can provide us the cell phone service we need in all areas of our county for emergency operations, as well as for other supporting organizations within the County, including County Road and Bridge operations.

Thank you for your consideration on this matter.

Best Regards,

Paul J. Wilde  
Chief Deputy  
Chairman, 911 Multi-Agency Board
