

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF FRETTEL COMMUNICATIONS, LLC'S 2013 BROADBAND EQUIPMENT TAX CREDIT APPLICATION.))))	CASE NO. FRC-T-14-01 ORDER NO. 33141
--	------------------	---

On September 11, 2014, Fretel Communications, LLC (Fretel) applied to the Idaho Public Utilities Commission (Commission) for an Order confirming that equipment it installed in 2013 is “qualified broadband equipment” under *Idaho Code* § 63-3029I (Income tax credit for investment in broadband equipment). With this Order, we confirm that the installed equipment is “qualified broadband equipment” under *Idaho Code* § 63-3029I.

THE APPLICATION

In its Application, Fretel says it invested \$92,552.57 in qualifying broadband equipment in 2013. Application at 2. Fretel says it installed equipment associated with Asymmetric digital subscriber line (ADSL) and Ethernet broadband services. *Id.* Fretel’s installed equipment is capable of transmitting signals at a rate of at least 256,000 bits per second (bps) (and up to 1,000,000,000 bps) from a subscriber, and at least 768,000 bps (and up to 1,000,000,000 bps) to a subscriber. *Id.*

THE BROADBAND EQUIPMENT TAX CREDIT

Idaho Code § 60-3029I allows a taxpayer to receive an income tax credit for having installed qualified broadband equipment during a calendar year. Before the taxpayer is eligible for the tax credit, the taxpayer must first apply to the Commission for an Order confirming that the installed equipment is “qualified broadband equipment” as defined in the statute. *Idaho Code* § 63-3029I(4). That statute defines “qualified broadband equipment” as equipment that qualifies for the *Idaho Code* § 63-3029B capital investment credit that “is capable of transmitting signals at a rate of at least [200,000 bps] to a subscriber and at least [125,000 bps] from a subscriber.” *Idaho Code* § 63-3029I(3)(b). In addition, to be “qualified broadband equipment” the equipment must be “primarily used to provide services in Idaho to Idaho public subscribers.” *See Idaho Code* § 63-3029I(3)(b)(vii). Further, in “the case of a telecommunications carrier, such qualifying equipment shall be necessary to the provision of broadband service and an integral part of a broadband network.” *Idaho Code* § 63-3029I(3)(b)(i).

In furtherance of its statutory responsibility, the Commission has issued Order No. 28784. That Order specifies the information the taxpayer must include in the broadband tax credit application. When the taxpayer files the application, the Commission Staff reviews it to determine whether the listed equipment meets the statutory definition of “qualified broadband equipment.” Staff then submits a recommendation to the Commission. If the Commission ultimately approves the application, then the Commission forwards it and the Order to the Idaho State Tax Commission.

STAFF REVIEW

Staff reviewed Fretel’s Application under *Idaho Code* § 63-3029I. Based on its review, Staff believes that Fretel is a telecommunications carrier and that the listed equipment meets the statutory criteria and is “qualified broadband equipment” that is eligible for the tax credit. Staff thus recommended the Commission: (1) issue an Order confirming that Fretel’s equipment is “qualified broadband equipment,” and (2) forward copies of the Application and Order to the Idaho State Tax Commission.

COMMISSION FINDINGS

Having reviewed Fretel’s Application and Staff’s recommendation, we find that Fretel’s equipment is “qualified broadband equipment” subject to the tax credit under *Idaho Code* § 63-3029I. Fretel is a telecommunications carrier. Further, the listed equipment (as presently configured) is an integral part of Fretel’s broadband network and is necessary to the provision of broadband service to Idaho customers. Accordingly, it is appropriate for the Commission to issue an Order confirming that Fretel’s equipment is “qualified broadband equipment.” The Commission makes no findings regarding the costs of the installed broadband equipment or other expenses.

ORDER

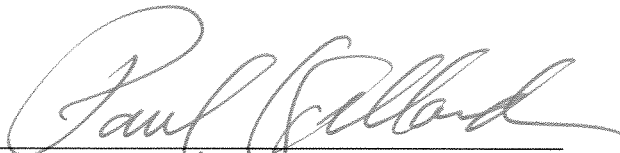

IT IS HEREBY ORDERED that Fretel Communications, LLC’s Application for an Order confirming that equipment it installed in 2013 is “qualified broadband equipment” is granted.

IT IS FURTHER ORDERED that a copy of this Order and a copy of the Application be served on the Idaho State Tax Commission.

THIS IS A FINAL ORDER. Any person interested in this order (or in issues finally decided by this order) may petition for reconsideration within twenty-one (21) days of the

service date of this order with regard to any matter decided in this order. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. *See Idaho Code §§ 61-626 and 62-619.*

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 30th day of September 2014.

PAUL KJELLANDER, PRESIDENT

MACK A. REDFORD, COMMISSIONER

MARSHA H. SMITH, COMMISSIONER
