To Whom It May Concern:

Fatbeam is a registered CLEC within the State of Idaho, Washington, Montana, Wyoming, and Oregon. Our services are Lit Ethernet above 1 Gigabit per second and Dark Fiber. We continue to deploy our network in the Coeur d'Alene metro area in 2012 to provide 2 Gigabit Ethernet connections to the Post Falls and Coeur d'Alene School Districts. Internet traffic, voice, and data are carried over our network to all school facilities. We believe this qualifies our equipment under Idaho Code 63-3029I. The school district is able to use the USAC E-Rate program to help offset the cost of our service, as it is eligible for Priority 1 – Telecommunications with E-Rate.

Fatbeam plans on leasing excess capacity on the network to other members of the community, mainly in the form of dark fiber. Our customers on record as of the end of 2012 are the City of Coeur d'Alene, Intermax Networks, Dave Smith Motors, tw telecom, and Mammoth Networks (Idaho Transportation Department). In 2013 we began servicing the Idaho Education Network through Education Networks of America and XO Communications on our Coeur d'Alene metro area network.

Please let me know if you have any further questions regarding our Broadband Tax Credit Application for 2012.

Kind regards,

Mark Lathrop

Vice President – Finance & Operations
Fatbeam

Idaho Broadband Equipment Tax Credit Application

Company Information

1. Name of company: Fatbeam, LLC
