FZ4-T-14-01

To Whom It May Concern:

Fatbeam is a registered CLEC within the State of Idaho, Washington, Montana, Wyoming, and Oregon. Our services are Lit Ethernet above 1 Gigabit per second and Dark Fiber. We continue to deploy our network in the Coeur d'Alene metro area in 2013 to provide 10 Gigabit Ethernet connections to the Coeur d'Alene School District. Internet traffic, voice, and data are carried over our network to all school facilities. We have also deployed our networks into Rathdrum and Grangeville for other providers who service the school districts in those areas (see next paragraph). We believe this qualifies our equipment under Idaho Code 63-3029I. The school district is able to use the USAC E-Rate program to help offset the cost of our service, as it is eligible for Priority 1 – Telecommunications with E-Rate.

Fatbeam plans on leasing excess capacity on the network to other members of the community, mainly in the form of dark fiber. Our customers on record as of the end of 2013 are the City of Coeur d'Alene, Intermax Networks, Dave Smith Motors, Ednetics (Lakeland School District in Rathdrum), Education Networks of America (Coeur d'Alene School District and Mountain View School District in Grangeville), Sentry Dynamics, XO Communications, tw telecom, and Mammoth Networks (Idaho Transportation Department and Mountain West Banks).

Please let me know if you have any further questions regarding our Broadband Tax Credit Application for 2013. The best way to reach me is via email at kim@fatbeam.com or phone at (509) 344-1008.

Kind regards,

Kim Devlin

Accts. Coord./Office Manager
