Comment_description: I can't tell you how extremely pleased we are to see this come before the commission. Being part of the quick response medical team, I can honestly say that each year we lose patients due to someone not being able to dial 911 for help without looking for money to put into the pay phone or use a calling card. Salmon is the major town for us to shop and otherwise do business. Having it toll-free will be a tremendous plus. Thank you for considering our request.

Sincerely,
Aubrey & Marsha Smith

Comment_description: I am in favor of granting this service to the Shoup exchange. I have lived in this area for many years and have to make personal calls to Salmon quite frequently. I also run a business from my home and try to make extensive use of Salmon enterprises requiring many calls to that exchange Both of these are quite costly due to the present service arrangement.
Please grant the EAS to this exchange. Thank you,

I whole hardly support getting local access.

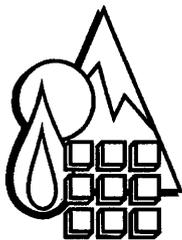

Every phone call is a long distance call. (Outside Rural Telephone Area), and makes for difficulty in getting return calls. All medical & business calls are long distance, the internet is impossible without local access.

Thank you

Dear Sir!

I have a home on Ponthe Creek,
Shoup, Idaho and have a telephone
and service provided by Rural
Telephone. I would like to see
free phone access provided to
Salmon, Idaho as free access
was provided by the old ground
to turn phone line to this area
years ago.

Sincerely-

Ken Rogers
