Re: Telephone Service to the Soldiers Meadow Area in North Central Idaho

Dear Commissioners:

As permitted under Idaho Statute 61-508, the citizens of the Soldiers Meadow area hereby file a formal complaint and ask the Commission to open a formal proceeding to investigate service extensions and service area boundaries for Soldiers Meadow. Our request is based on the fact "...facilities or other physical property of any public utility... ought reasonably to be made, or that a new structure or structures should be erected, to promote the **security**." Mr. Maras and Mrs. Weed are both suffering from serious health problems and the other residents certainly realize the need for a telephone in any health or physical emergency.

Our complaint also recognizes the fact that we comprise the third group of the original petitioners for service. Based on conversations with staff, we were advised that this petition was going to be considered in its entirety, all of the petitioners or none. Subsequently, we were told Soldiers Meadow was outside of the service area. **Why wasn't the service area boundary changed?** Quest was allowed to modify its tariff to allow a \$1,600 line extension credit per applicant, similar to its southern Idaho tariff, so there were changes made during our application process. Our request for service could be the basis to revise the service area boundary.

Quest has installed service to the Forest area free of cost to customers. At that time, all equipment and manpower was mobilized which could have easily extended service to the Soldiers Meadow area a few miles away. We feel we were discriminated against just because of the arbitrary straight line of the county boundary. It appears that the Soldiers Meadow area is a "no man's land" which seems unbelievable in 2004. The residents of Soldiers Meadow could also be served from the Waha area which currently has telephone service.

We respectfully request that the Commissioners hear our complaint and open a formal proceeding. Please advise us of the necessary steps we need to take in this process.
Thank you.

Sincerely,

Vivian Maras
