**DATE:** NOVEMBER 18, 2005

**SUBJECT:** PIC CHANGE CHARGE – AMENDED ORDER – CASE NO. GNR-T-05-1

On June 20, 2005, the Idaho Public Utilities Commission (Commission) issued Order No. 29806, stating that the intrastate/intraLATA primary interexchange carrier (LPIC) change charge shall coincide with the FCC's presubscribed interexchange carrier (PIC) change charge safe harbor pricing structure. Order No. 29806 at 4. The Order stated, "all incumbent local exchange carriers shall file the appropriate changes in their Idaho tariffs to become effective at the same time as the changes that they must file in their federal tariffs, no later than October 17, 2005." *Id.*

At the time the Commission released Order No. 29806, the federal tariff filings were due by October 17, 2005. However, in response to emergency petitions filed by Verizon and SBC Communications, on October 14, 2005, the Federal Communications Commission (FCC) extended the previously established October 17, 2005, deadline for the filing of federal tariffs.

On October 28, 2005, the Commission issued a Notice of Amended Order. The proposed amended Order eliminates the October 17, 2005, filing deadline for Idaho tariffs, thus leaving the Idaho filing deadline to coincide with the federal filing deadline. The Notice directed interested parties who wished to be heard with regard to the Amended Order to submit written comments within 14 days of the service date of the Notice. No written comments were received.

**COMMISSION DECISION**

Based upon the complete absence of objection and/or comments received on the Amended Order, does the Commission wish to make the Amended Order final?
