

**BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION**

**IN THE MATTER OF IMPLEMENTING** )  
**MEASURES TO CONSERVE TELEPHONE** ) **CASE NO. GNR-T-07-04**  
**NUMBERS IN THE 208 AREA CODE** )  
 ) **ERRATA TO**  
 ) **ORDER NO. 30425**

---

On September 13, 2007, IPUC Order No. 30425 was issued by this Commission.  
The following change(s) should be made to that Order:

Page 4, Paragraph 1:

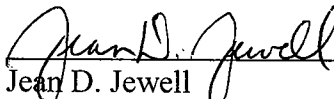

**READS:**

“Applicable carriers will biennially report their number resource utilization/forecast (NRUF) data at the 1,000-block level for rate centers marked as Mandatory Pooling (designated as M or M\*) by NeuStar. Rural incumbent local exchange companies are only required to report NRUF data at the 1,000-block level once they have received a request for LNP. Although paging companies are exempt from pooling requirements, we encourage them to participate on a voluntary basis and they should continue to biennially report NRUF data at the NXX level for all rate centers in the 208 area code.”

**SHOULD READ:**

“Applicable carriers will semi-annually report their number resource utilization/forecast (NRUF) data at the 1,000-block level for rate centers marked as Mandatory Pooling (designated as M or M\*) by NeuStar. Rural incumbent local exchange companies are only required to report NRUF data at the 1,000-block level once they have received a request for LNP. Although paging companies are exempt from pooling requirements, we encourage them to participate on a voluntary basis and they should continue to semi-annually report NRUF data at the NXX level for all rate centers in the 208 area code.”

DATED at Boise, Idaho this 7<sup>th</sup> day of April 2009.
