RE: 2012 ANNUAL CERTIFICATION OF ELIGIBLE TELECOMMUNICATIONS
CARRIERS

Dear Jean:

Direct Communications – Rockland (DCR), through its consulting firm GVNW Consulting, Inc., hereby submits its Annual Eligible Telecommunications Carrier Designation Report and Affidavit, in compliance with the requirements set forth in IPUC Order No. 29841.

DCR receives such high cost fund support only for the provision, maintenance, and upgrading of facilities and services for which support is intended. The Company is seeking ETC designation again to continue to receive this support so it can continue those functions into the future. The following ETC annual report information is a partial submission of the annual reporting requirements in IPUC Order No. 29841 and the Company will provide the remaining requirements when the IPUC staff officially sends out its request later this summer. The Company intent is to meet the FCC reporting requirements under Sec. 54.313 CFR, as the FCC recently released a Public Notice that established July 2, 2012 as the filing deadline for reports and certifications required by 54.313(a)(2) through (6) and (h).

If there are any questions concerning this report, or if additional information is required, please contact me by telephone at (719) 594-5800, or by email at aschein@gvnw.com.

Sincerely,

Andrew J. Schein
Senior Consultant

Direct Communications - Rockland (DCR) is an Incumbent Local Exchange Carrier providing basic telephone services. DCR's NECA study area designation (SAC) is 472232. DCR hereby reports the following information as requested in IPUC Order No. 29841.

Number of Idaho Telephone Service Assistance Program (ITSAP) recipients:

DCR had 65 recipients.

Section 2: Description of Carrier's Local Usage Plan – Competitive Eligible Telecommunications Carrier (CETC) Only

This section is not applicable to DCR (ILEC).

Section 3: Detailed Outage Information 54.209(a)(2)

Detailed Outage Information on any outage of at least (30) minutes in duration that affects at least ten percent of the end users, or that could affect access to 9-1-1 must report the following information: (a) the date and time of onset of the outage; (b) a brief description of the outage and its resolution; (c) the particular service affected; (d) the geographic areas affected by the outage; (e) steps taken to prevent a similar situation in the future; (f) the number of customers affected.

The Company had zero outages as defined in 47 C.F.R. 4.5 of at least 30 minutes and affecting at least ten percent of the end users in the company's service area or a 911 special facility during the reporting period.

Section 4: Unfilled Service Requests 54.202 (a) (1) (A)

The number of requests for service from potential customers within the ETC's service areas that were unfulfilled during the past year and written submission detailing how it attempted to provide service to those potential customers, as set forth in 47 C.F.R. 54.202(a)(1)(i).

As per the requirements set fourth in 47 C.F.R 54.202 (a)(1)(i) the Company had zero unfilled service requests during the reporting period.

Section 5: Customer Complaints 54.209(a) (4)

The number of complaints per 1,000 access lines or handsets.

The Company was notified by the IPUC of zero formal or informal complaints during the reporting period. The Company received twelve complaints from customers during the period with many of them relating to the rural call completion issue.

Section 6: Service Quality and Consumer Protection Certification 54.202(a)(3)

Certification that the ETC is complying with the applicable service quality standards and consumers protection rules; e.g., the CTIA Consumer Code for Wireless.

The Company certifies that it complies with the IPUC Customer Relations rules IDAPA 31.41.01 and applicable consumer protection and service quality standards. Please see attached Affidavit.

Section 7: Ability to Remain Functional in Emergencies Certification 54.201(a)(2)

Written submission detailing how the carrier is able to function in emergency situations as set forth in 47 C.F.R. & 54.201 (a)(2).

DCR utilizes battery back-up systems and standby generators in its central offices. This enables the company to sustain a power outage for at least 48 hours. DCR is also part of the Syringa Network that provides a fiber ring through southern Idaho. Being on the Syringa ring provides the company the capability of re-routing traffic and providing continuous service in emergency situations due to damaged facilities.

Section 8: Federal USF High-Cost Support Certification 54.313, 54.314

Please see attached Affidavit.

AFFIDAVIT OF BUSINESS OR CORPORATE OFFICER

The Idaho Public Utilities Commission Order No. 29841 requires that Eligible Telecommunications Carriers certify that it is compliant with applicable service quality standards and consumer protection rules; and ETCs must demonstrate the ability to remain functional in emergencies. In addition, the Commission must file an annual certification with the USAC and the FCC that all federal high-cost support provided to ETCs within the State of Idaho will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Accordingly, the undersigned states and verifies under oath the following:

1. I am an officer of Direct Communications-Rockland, an eligible telecommunications carrier for receiving federal universal service support under section 214(e) of the Telecommunications Act of 1996 in the state of Idaho.
2. I am familiar with the Company's day-to-day operations in the state of Idaho and with the State's service quality standards and consumer protection rules as set forth in Commission Order No. 29841.
3. Direct Communications-Rockland is complying with applicable service quality standards and consumer protection rules of the Federal Communications Commission and the Idaho Public Utilities Commission.
4. I certify to the Commission that the Company is able to remain functional in emergencies as set forth in Commission Order No. 29841 and in 47 C.F.R. § 54.201(a)(2).
5. I also certify that all federal universal service support funds received by Direct Communications-Rockland during the current calendar year will be used in a manner consistent with section 254(e); that is, for the provision, maintenance, and upgrading of facilities and services for which the support is intended. The company will continue to comply for the period of January 1, 2013, through December 31, 2013, to be eligible for federal universal service fund support.
6. This verification and affidavit is provided to be the Idaho Public Utilities Commission to enable the IPUC to certify to the FCC that federal universal service support received by the eligible carriers in the state will be used in a manner consistent with Section 254(e) of the Telecommunications Act.
