Re: T-Mobile West LLC, Eligible Telecommunications Carrier Certification Report Pursuant
to Order Nos. 29841 and 32319

Dear Ms. Jewell:

On behalf of T-Mobile West LLC, enclosed for filing are an original and seven copies of the Confidential version of the Report Pursuant to Order Nos. 29841 and 32319. Also enclosed are an original and seven copies of the Redacted version of the Report. A disk containing both Reports is also enclosed.

Very truly yours,

Davis Wright Tremaine LLP

**T-MOBILE WEST LLC
ELIGIBLE TELECOMMUNICATIONS CARRIER CERTIFICATION REPORT
PURSUANT TO ORDER NOS. 29841 and 32319**

T-Mobile West LLC (hereinafter "T-Mobile" or the "Company")¹ hereby submits this annual eligible telecommunications carrier ("ETC") certification report pursuant to Order No. 29841² ("*ETC Requirements Order*"), Order No. 32319³ ("*Designating Order*") of the Public Utilities Commission of Idaho ("Commission"), and 47 C.F.R. §§ 54.313 and 54.314.

I. COMMUNICATIONS REGARDING THIS REPORT

All pleadings, correspondence, and communications regarding this Report should be addressed as follows to:

Mark P. Trinchero
DAVIS WRIGHT TREMAINE LLP

State Regulatory Affairs
T-Mobile USA, Inc.
12920 SE 38th Street
Bellevue, Washington 98006
Teri.Ohta@t-mobile.com

¹ In Order No. 32581, the Commission amended T-Mobile's ETC designation effective June 25, 2012, to reflect the change in its business name from T-Mobile West Corporation to T-Mobile West LLC.

² See *In the Matter of the Application of WWC Holding Co., Inc. dba Cellular-One® Seeking Designation as an Eligible Telecommunications Carrier That May Receive Federal Universal Service Support*, Case No. WST-T-05-1, Order No. 29841, Appendix at C (August 4, 2005).

³ *In the Matter of the Application of T-Mobile West Corporation for Designation as an Eligible Telecommunications Carrier*, Case No. TMW-T-10-01, Order No. 32319 (August 9, 2011).

II. BACKGROUND

T-Mobile was designated as an ETC in certain rural telephone company study areas and non-rural telephone company wire centers across the state of Idaho (“Designated Area”) by the Commission in the *Designating Order*. A list of the non-rural telephone company wire centers and rural telephone company study areas that comprise the Designated Area is included as Attachment A. T-Mobile’s Universal Service Administrative Company (“USAC”) assigned study area code is 479013.

On October 27, 2011, in its *USF/ICC Transformation Order*, the Federal Communications Commission (“FCC”) adopted changes to its universal service rules⁴ and, on February 6, 2012, in its *Lifeline Reform Order*, the FCC adopted further changes to its universal service rules governing the provision of Lifeline service.⁵ Among the changes adopted in these two orders, the FCC revised the annual reporting and certification requirements, which are now reflected in 47 C.F.R. § 54.313. In this Report (and Attachments)⁶, T-Mobile addresses each of the reporting requirements adopted by the Commission in the *Designating Order*, in the *ETC Requirements Order*, and in the updated annual reporting and certification requirements adopted in the *USF/ICC Transformation Order*.

III. T-MOBILE’S UNIVERSAL SERVICE SUPPORT

In the *USF/ICC Transformation Order*, the FCC took several steps toward developing a budget for the Universal Service Fund including (among other things) eliminating the identical

⁴ *Connect America Fund et al.*, WC Docket No. 10-90, *et al.*, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011) (“*USF/ICC Transformation Order*”).

⁵ *In the Matter of Lifeline and Link Up Reform and Modernization, Report and Order and Further Notice of Proposed Rulemaking*, WC Docket No. 11-42, FCC 12-11, released February 6, 2012 (“*Lifeline Reform Order*”). In its Lifeline Reform Order, the FCC adopted additional requirements for the provision of Lifeline service, including Lifeline reporting requirements, but none of these requirements change an ETC’s high-cost annual reporting obligations under 47 C.F.R. § 54.313.

⁶ Some of the Attachments to this Report contain confidential and trade secret information exempt from public disclosure pursuant to Section 9-340D, Idaho Code, and are filed pursuant to Commission Rule of Procedure 67.

support rule, limiting the per line high cost support, freezing high cost support for all competitive ETCs (“CETCs”) for an interim period of six months in 2012, and phasing down all high cost support for CETCs over a five-year period beginning in July 2012. Pursuant to the *USF/ICC Transformation Order*, monthly high cost support for CETCs will be the aggregate support received in 2011 divided by 12. Beginning in July 2012, CETCs became subject to a 20 percent per year phase down, with all legacy high cost support to CETCs being eliminated by 2016.

In calendar year 2011, T-Mobile received a total of \$246,799 in federal high cost universal service support for its Idaho study area. Based on the computations provided by USAC, T-Mobile currently estimates that it will receive approximately \$210,000 in federal high cost universal service support in Idaho in 2012 based upon the steps taken by the FCC in the *USF/ICC Transformation Order* (identified above) to reduce legacy funding for CETCs. This estimate is based on current information and may change based upon clarification or reconsideration of the rules adopted in the *USF/ICC Transformation Order*.

IV. T-MOBILE’S ANNUAL CERTIFICATION

47 U.S.C. § 254(e) requires that an ETC receiving federal universal service support “shall use that support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.” The FCC later concluded “that states should be required to file annual certification with the Commission to ensure carriers use universal service support ‘only for the provision, maintenance, and upgrading of facilities and services for which the support is intended’ consistent with Section 254(e).”⁷ In the *USF/ICC Transformation Order*, the FCC modified the high-cost certification requirements, which are incorporated into 47 C.F.R. § 54.314 and in T-Mobile’s attached certification. Separately, the Commission concluded in the

⁷ Fourteenth Report and Order, Twenty-Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256, ¶ 187.

ETC Requirements Order that “[i]n order to be eligible for federal USF funding in any given year, the carrier must * * * certify to the Commission that all federal high-cost support provided to the carrier for service areas in Idaho will be used only for the provision, maintenance and upgrading of facilities and services for which the support is intended.”

Accordingly, included as Attachment B is T-Mobile’s annual certification based upon the requirements of 47 U.S.C. § 254(e), 47 C.F.R. § 54.314, Section D of the Appendix of the *ETC Requirements Order*, certifying that it will utilize federal high cost universal service funds for the purposes for which those funds are intended, which will enable the Commission to make the required annual certification to the FCC. T-Mobile demonstrates herein that it meets all applicable annual certification requirements as described below.

A. 2011 Progress Report

Standard C(1) of the *ETC Requirements Order* requires an ETC to submit a progress report demonstrating what progress has been made in the last year towards goals outlined in the most recent two-year network improvement plan. The progress report must include maps detailing progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve signal quality, coverage, or capacity, and an explanation regarding network improvement targets that were not met. T-Mobile’s progress report detailing its use of its 2011 receipt of federal high cost universal service support is included as Confidential Attachment C. In accordance with Standard C(1) of the *ETC Requirements Order*, T-Mobile will track how the Company expends federal high cost universal service support in 2012 and beyond.

B. 2012-2013 Network Improvement Plan

Standard C(1) of the *ETC Requirements Order* requires an ETC to submit a new two-year network improvement plan, indicating plans for future investments that identify anticipated capital expenditures in the ETC's Designated Areas, includes maps detailing planned targets, and explains how universal service support will be used to improve signal quality, coverage, capacity, or other network targets.

T-Mobile's Network Improvement Plan for Idaho is filed as Confidential Attachment D. T-Mobile's Network Improvement Plan identifies projected network improvements and upgrades that will be funded with universal service funds in 2012 and 2013 to improve signal quality, coverage, and/or capacity. All cell site and site modification projects are designed to improve signal quality, coverage, and capacity, and switch upgrades are designed to improve service quality and capacity. The Network Improvement Plan further identifies other expenditures in the state for the provision, maintenance, and upgrading of facilities used to deliver supported services to consumers consistent with 47 U.S.C. § 254(e). The map included in Confidential Attachment E identifies the planned projects and the areas served by these improvements.

The selection of the projects in the Network Improvement Plan is based on the Company's evaluation of many factors, including current consumer demand, competitive forces, long-term planning, available capital, and others. As these factors change, the Network Improvement Plan may be modified. In addition, forces beyond the Company's control (for example, zoning issues related to cell site placement) may result in modifications to planned projects or timelines. As a result, the content and timing of the projects in the Network Improvement Plan are subject to change. In addition, if the actual amount of federal high cost universal service funding received varies from the amount currently estimated, T-Mobile

reserves the right to modify its Network Improvement Plan accordingly. Any modifications will be reported in future Network Improvement Plans and progress reports.

C. Network Outages in 2011

Standard C(2) of the *ETC Requirements Order* and 47 C.F.R 54.313(a)(2) require an ETC to make an annual filing of detailed information on any outage, as that term is defined in 47 C.F.R. § 4.5, of at least thirty (30) minutes in duration for each service area in which an ETC is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affects at least ten percent (10%) of the end users' service in a designated service area or a 911 special facility during the previous calendar year. Specifically, the ETC's annual report must include information detailing:

- (a) the date and time of onset of the outage;
- (b) a brief description of the outage and its resolution;
- (c) the particular services affected;
- (d) the geographic areas affected by the outage;
- (e) steps taken to prevent a similar situation in the future; and
- (f) the number of customers affected.

In accordance with Standard C(2) of the *ETC Requirements Order* and 47 C.F.R § 54.313(a)(2), T-Mobile submits as Confidential Attachment F its network outages for the period in which it was designated as an ETC in 2011.

D. Unfulfilled Requests for Service in 2011

Standard C(3) of the *ETC Requirements Order* and 47 C.F.R. § 54.313(a)(3) require an ETC to identify the number of requests for service from potential customers within the ETC's service area that were unfulfilled during the previous calendar year. The ETC must also detail

how it attempted to provide service to those potential customers. T-Mobile submits as Confidential Attachment G its unfulfilled service requests for the period in which it was designated as an ETC in 2011. In accordance with Standard C(3) of the *ETC Requirements Order* and 47 C.F.R. § 54.313(a)(3), T-Mobile will take the necessary steps to resolve any requests for service and track all requests for service (as necessary) in 2012 and beyond.

E. Complaints Per 1,000 Handsets in 2011

Standard C(4) of the *ETC Requirements Order* requires an ETC to report the number of complaints per 1,000 handsets or lines. 47 C.F.R. § 54.313(a)(4) requires an ETC to report the number of complaints per 1,000 connections in the prior calendar year. T-Mobile submits as Confidential Attachment H its complaints per 1,000 handsets report for year 2011. In accordance with Standard C(4) of the *ETC Requirements Order* and 47 C.F.R. § 54.313(a)(4), T-Mobile will continue to assist customers in an effort to resolve all customer concerns and complaints in 2012 and beyond.

F. Certification Regarding Applicable Service Quality Standards and Consumer Protection Rules

Standard C(5) of the *ETC Requirements Order* and 47 C.F.R. § 54.313(a)(5) require an ETC to certify that it is complying with applicable service quality standards and consumer protection rules. For a wireless ETC, compliance with the CTIA-The Wireless Association's® ("CTIA") Consumer Code for Wireless Service ("Consumer Code")⁸ meets this requirement. Attachment I is a copy of T-Mobile's most recent certification of the Consumer Code from

⁸ See CTIA-The Wireless Association's® Consumer Code for Wireless Service, available at http://files.ctia.org/pdf/The_Code.pdf. Signatories to the CTIA Consumer Code agree to: (1) disclose rates and terms of service to consumers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; (10) abide by policies for protection of customer privacy; and (11) provide consumers with free notifications for voice, data, and messaging usage, and international usage.

CTIA. In addition, included in Attachment B is T-Mobile's certification that it is complying with applicable service quality standards and consumer protection rules.

G. Description of Applicant's Local Usage Plan and that of the ILEC

Standard C(6) of the *ETC Requirements Order* requires an ETC to provide a description of its local usage plan(s) to demonstrate comparability with the incumbent LEC's offerings. In addition, 47 C.F.R. § 54.313(a)(7) requires an ETC to provide its price offerings in a format as specified by the FCC Wireline Competition Bureau ("WCB"). T-Mobile makes available several different rate plans with varying amounts of intra and interstate usage, various calling services and different calling areas, in addition to offerings that include additional services. The WCB has not yet provided guidance regarding the specific format of the pricing data, therefore, T-Mobile includes details regarding some of its currently offered rate plans, which is attached as Attachment J. T-Mobile will amend this list to comply with any later WCB guidance to the extent required or requested to do so.

V. IDAHO TELEPHONE SERVICE ASSISTANCE PROGRAM (ITSAP) REPORTS

A. ITSAP Recipients

Included as Confidential Attachment K is T-Mobile's report including the number of T-Mobile Idaho Lifeline or ITSAP subscribers.

B. ITSAP Offerings

T-Mobile makes available to qualified low-income consumers a discounted, facilities-based service offering that meets all applicable Lifeline requirements. T-Mobile's traditional Lifeline offering in Idaho includes:

- a low \$19.99 per month base rate less the applicable Lifeline discount of \$13.50, resulting in a low monthly Lifeline discounted rate of \$6.49;⁹
- 145 Whenever minutes[®], 500 night minutes, and 500 weekend minutes per month;¹⁰
- additional minutes priced at \$0.05 per minute; and
- an affordable handset.

T-Mobile's traditional Lifeline offering provides consumers additional benefits. For example, calls to 911 and customer service (dialing 611 from the mobile handset) are free calls, regardless of whether the customers have sufficient remaining minutes available in their account, and those calls will not be deducted from the monthly included minutes or charged as additional minutes. Additionally, qualified consumers who subscribe to T-Mobile's Lifeline offering are not charged a fee to recover federal universal service fund contributions or other non-tax related government-related surcharges (including the fee for the cost of local number portability). In addition to voice services, T-Mobile's Lifeline customers (like all of its customers) also have access to a variety of other standard features at no additional charge, including voice mail, caller identification, and call-waiting services.

T-Mobile also currently makes available to Lifeline subscribers a \$10.00 discount on certain plans (monthly 4G and Walmart Family Mobile) that are generally available to the public. See <https://lifeline.t-mobile.com/> and <https://lifeline.myfamilymobile.com/>.

In accordance with 47 C.F.R. § 54.401(b), T-Mobile may modify which offerings are made available to qualifying low-income consumers, consistent with all applicable requirements.

⁹ T-Mobile is applying to its traditional Lifeline offering the new flat rate, interim Lifeline support amount of \$9.25 plus \$0.75 carrier additive that it will pass through to consumers (but not seek reimbursement for), and \$3.50, which is the maximum of state support available in the states where T-Mobile offers Lifeline service (but does not seek reimbursement for), for a total discount of \$13.50. See 47 C.F.R. § 54.403(a) (as amended by the *Lifeline Reform Order*).

¹⁰ Whenever minutes[®] are minutes that can be used at anytime and anywhere on T-Mobile's nationwide network. Weekend minutes are currently defined as midnight Friday to midnight Sunday, and nights are currently defined as 9:00 p.m. to 6:59 a.m. Monday-Friday, based on the start time of call.

VI. ADDITIONAL FCC REQUIREMENTS

A. Certification Regarding Ability to Remain Functional in Emergency Situations

47 C.F.R. § 54.313(a)(6) requires an ETC to certify that it is able to function in emergency situations as set forth in 47 C.F.R. § 54.202(a)(2). T-Mobile plans for emergency situations by making capital improvements to the network, by undertaking preventative maintenance, training personnel, and continually monitoring its network elements. In particular, T-Mobile complies with 47 C.F.R. § 54.202(a)(2), which sets forth three (3) areas of demonstration with respect to remaining functional in an emergency situation: back-up power to ensure a functioning network; network redundancy for rerouting; and how traffic spikes are addressed.

1. Back-Up Power

T-Mobile has fixed and portable back-up power generators located at various network locations that it can deploy in emergency situations. In the limited instances where T-Mobile has sites not equipped with fixed generators, the majority have battery back-up systems installed to maintain service in the event of a widespread power outage.

2. Ability to Reroute Traffic Around Damaged Facilities

T-Mobile has the ability to reroute traffic around damaged out-of-service facilities through the deployment of cells-on-wheels (“COWs”), redundant facilities, and dynamic rerouting of traffic over alternate facilities.

3. Ability to Manage Traffic Spikes During Emergency Periods

T-Mobile has a network control center that monitors network traffic, anticipates traffic spikes, and can: (i) deploy network facilities to accommodate capacity needs; (ii) change call

routing translations; and (iii) deploy COWs to temporarily meet traffic needs until more durable solutions, such as additional capacity and antenna towers, can be deployed.

Included in Attachment B is T-Mobile's certification regarding its ability to remain functional in emergency situations.

VII. CONCLUSION

Based on the foregoing information, T-Mobile respectfully requests the Commission certify to the FCC and USAC that T-Mobile continues to be eligible to receive federal universal service support.

Dated this 31st day of August, 2012.

Respectfully submitted,

T-Mobile West LLC

Idaho)	

ANNUAL CERTIFICATIONS

I am H. Skip Cornett, Vice President of Tax for T-Mobile USA, Inc., which is the parent company of and controls T-Mobile West LLC (hereinafter "T-Mobile") in this matter. I submit this certification in support of T-Mobile's petition for certification as an Eligible Telecommunications Carrier pursuant to Section 214(e)(2) of the Communications Act of 1934 ("petition").

In my capacity as Vice President of Tax for T-Mobile, I have general knowledge regarding its operation of commercial mobile radio services ("CMRS") in the State of Idaho, and its qualifications and abilities to provide CMRS-based Universal Service consistent with this petition. I certify that, to the best of my knowledge and belief, T-Mobile:

1. did in 2011 and will in 2013 use its **HIGH-COST SUPPORT** only for the provision, maintenance and upgrading of facilities and services within the service area described in Attachment A to the referenced Petition for which support is intended, consistent with Section 254(e) of the Communications Act, 47 U.S.C. § 254(e);

2. complies with the applicable service quality standards required by the Commission (specifically, CTIA-The Wireless Association's® Consumer Code for Wireless Service); and,
3. is able to function in emergency situations.

I am authorized to make this certification on behalf of T-Mobile.

Signed,

H. Skip Cornett

T-Mobile Annual Certification
2012
Attachment I
Page 1 of 1

October 7, 2011

Ms. Kelsey Joyce
Director of Legal Affairs
Marketing
T-Mobile USA, Inc.
12920 SE 38th Street
Bellevue, WA 98006

Dear Kelsey:

Congratulations! This letter is to notify you that T-Mobile USA ("T-Mobile") has completed the recertification process for the CTIA Consumer Code for Wireless Service ("Voluntary Consumer Code") for the period January 1, 2011 - December 31, 2011, and is deemed compliant with the principles, disclosures and practices set forth in the Voluntary Consumer Code. Accordingly, T-Mobile is authorized to use and display the CTIA Seal of Wireless Quality/Consumer Information, subject to the terms and conditions set forth in the attached License Agreement.

Please ensure that the relevant employees of T-Mobile review the License Agreement before using the Seal. Use of the Seal constitutes acceptance of these terms and conditions. Upon request, we will provide two specimens (color and black/white) of the Seal for T-Mobile's use on its website or collateral materials. If you should have any questions concerning the recertification process or use of the Seal, please contact Andrea Williams, CTIA's Vice President of Law and Assistant General Counsel, at (202) 736-3215 or awilliams@ctia.org.

CTIA commends T-Mobile for its ongoing leadership and participation in the CTIA Voluntary Consumer Code, and we look forward to continuing to work with T-Mobile on this important industry initiative.

Sincerely,

Congratulations!

Steve Largent

T-Mobile Classic Plans for Individuals

T-Mobile offers a variety of rate plans, so you can pick the perfect plan. All of the Classic plans come with great phone discounts, UNLIMITED nationwide T-Mobile to T-Mobile calling and UNLIMITED Nights and Weekends. A two-year contract is required.

Classic Individual Plans			
Price	Talk	Text	Data
\$39 ⁹⁹	500 Whenever Minutes [®]	—	
\$49 ⁹⁹	500 Whenever Minutes	Unlimited	—
\$49 ⁹⁹	1000 Whenever Minutes	—	
\$59 ⁹⁹	Unlimited	Unlimited	
\$69 ⁹⁹	500 Whenever Minutes	Unlimited	Unlimited – Plus with 2 GB of high-speed data
\$79 ⁹⁹	Unlimited	Unlimited	
\$79 ⁹⁹	500 Whenever Minutes	Unlimited	Unlimited – Premium with 5 GB of high-speed data
\$89 ⁹⁹	Unlimited	Unlimited	
\$109 ⁹⁹	500 Whenever Minutes	Unlimited	Unlimited – Ultra with 10 GB of high-speed data
\$119 ⁹⁹	Unlimited	Unlimited	

How much high-speed data do you need?

- With T-Mobile's unlimited data plans (2 GB, 5 GB and 10 GB of high-speed data), you'll never have surprise costs or be cut off.
- If you use more high-speed data than your unlimited plan covers, we simply allow you to access the Web at up to 2G speeds.
- You can upgrade to a bigger data plan at any time.

Find the data plan that fits you.

Recommended for, but not limited to:

- Occasional email with attachments
- Occasional Web surfing (checking news, weather and sports scores)
- Navigation
- Social networking posts and photo uploads
- Downloading music and games

Recommended for, but not limited to:

- Frequent email with attachments
- Daily Web surfing and online gaming
- Social networking posts and photo/video uploads
- Downloading music, games and movies
- Streaming music, TV, movies and video chat

Recommended for, but not limited to:

- All of the above with increased frequency or extended use of streaming activities
- Also compatible with tethering plans (available at an additional monthly charge)

Add 200 MB of high-speed data to Talk + Text plans for just \$10 more per month. Overages are 10¢ per MB.

Prices reflect monthly recurring charges; taxes and fees additional. Text plans include unlimited nationwide text, and picture and video messaging.

The ability to send/receive messages is included with all T-Mobile service, and the ability to access data (e.g., the Web) is included with all post-paid service, on compatible devices. Some plans and features include unlimited messaging/data or message/data allotments. If you don't have a plan or feature that includes messaging/data, messages you send/receive and data that you use will be charged to your account on a per use basis. See www.T-Mobile.com for messaging/data rates and for message blocking and data usage opt-out options.

Still have questions?

See a Sales Associate, or visit our online data calculator at www.T-Mobile.com/calculator

All Pricing: Limited-time offers; subject to change. Taxes and fees additional. Post-paid only. Rates apply only to services used and calls originating and received within the U.S. (unless stated otherwise). International use incurs additional separate charges. Compatible device required; not all features or plans available on all devices. **Unlimited features for direct U.S. communications between two people.** **General Terms:** Credit approval, \$35 per line activation fee, deposit and two-year agreement with up to \$200/line early cancellation fee required. If you switch plans you may be bound by existing or extended contract term (including early cancellation provisions) and/or charged an up to \$200 fee. You may be unable to switch to some plans. Additional requirements may apply to business customers; Premier and other business/association discounts may not be available. Regulatory Programs Fee (not a tax or government-mandated charge) of up to \$1.61 per line/month applies. Taxes approximately 6%–20% of your monthly bill. Overage usage extra; partial minutes/megabytes rounded up. Talk overage charge of \$0.45/minute. Some calls/features involve multiple calls; each call incurs separate charges. **Nights and Weekends:** Weekends are midnight Friday to midnight Sunday, and nights are 9:00 p.m. to 6:59 a.m. Monday–Friday, based upon start time of call. Different terms apply to FlexPay and prepaid. **T-Mobile to T-Mobile** calls are directly dialed between T-Mobile customer devices while on the T-Mobile USA network (and not roaming on any domestic or international network); calls to voicemail and other T-Mobile service numbers not included. **Messaging:** You will be charged for all messages you send and that are sent to you even if they aren't received. Length/size of messages may be limited. **Web/Data:** For unlimited data plans, full speeds available up to monthly data allotment; after allotment used, speeds slowed to up to 2G speeds for remainder of billing cycle. For 200 MB plan, overage of \$0.10/MB after monthly data allotment is used. **Your data session, plan or service may be slowed, suspended, terminated or restricted** if you use your service in a way that interferes with or impacts our network or ability to provide quality service to other users, if you roam for a significant portion of your usage, or if you use a disproportionate amount of bandwidth during a billing cycle. You may not use your plan or device for prohibited uses. **Tethering and Wi-Fi Sharing:** Monthly data allotment included with qualifying phone data plan applies. Use of connected devices subject to T-Mobile terms and conditions. **Downloads/Applications:** Additional charges may apply; not all downloads are available on all phones. T-Mobile is not responsible for any third-party content or website you may be able to access using your phone. You obtain no rights in downloads; duration of use may be limited and downloads may be stored solely for use with your phone. T-Mobile is not responsible for any download lost due to your error. T-Mobile is not responsible for apps, including download, installation, use, transmission failure, interruption or delay, third-party advertisements you may encounter while using an app, alterations any app may make to the functionality of your device, including any changes that may affect your T-Mobile plan, service, or billing, or any content or website you may be able to access through an app. **Coverage:** Not available everywhere. **Abnormal Usage:** Service may be limited or terminated for misuse, abnormal usage or significant roaming. **Bill Details:** Your bill summarizes your charges, fees and taxes, but does not include the details of services used. You may view bill details at my.T-Mobile.com or, for an additional charge, we will provide detailed bills. We do not provide bills to FlexPay and prepaid customers. \$109.99	Unlimited	Unlimited	Unlimited—Ultra with 10 GB of high-speed data

How much high-speed data do you need?

- With T-Mobile's unlimited data plans (2 GB, 5 GB and 10 GB of high-speed data), you'll never have surprise costs or be cut off.
- If you use more high-speed data than your unlimited plan covers, we simply allow you to access the Web at up to 2G speeds.
- You can upgrade to a bigger data plan at any time.

Find the data plan that fits you.

Recommended for, but not limited to:

- Occasional email with attachments
- Occasional Web surfing (checking news, weather and sports scores)
- Navigation
- Social networking posts and photo uploads
- Downloading music and games

Recommended for, but not limited to:

- Frequent email with attachments
- Daily Web surfing and online gaming
- Social networking posts and photo/video uploads
- Downloading music, games and movies
- Streaming music, TV, movies and video chat

Recommended for, but not limited to:

- All of the above with increased frequency or extended use of streaming activities
- Also compatible with tethering plans (available at an additional monthly charge)

Add 200 MB of high-speed data to Talk + Text plans for just \$10 more per month per line. Overages are 10¢ per MB.

* Whenever Minutes are shared by the two lines.

Prices reflect monthly recurring charges per line for each of your first two lines; two-line minimum. Taxes and fees additional. Text plans include unlimited nationwide text, and picture and video messaging.

Add a Line (Talk)

Classic Shared Minute Add a Line—shares existing Whenever Minutes, only available on Classic Minute™ plans	\$10
Classic 500 Add a Line—500 Whenever Minutes per line, only available on Classic Unlimited™ plans	\$10
Classic Unlimited Add a Line—only available on Classic Unlimited plans	\$30

Prices reflect monthly recurring charges per line; taxes and fees additional. Adding data for additional lines requires an add-a-line talk plan; stand-alone data plans not available. All family plans with unlimited text provide unlimited text for all additional lines.

The ability to send/receive messages is included with all T-Mobile service, and the ability to access data (e.g., the Web) is included with all post-paid service, on compatible devices. Some plans and features include unlimited messaging/data or message/data allotments. If you don't have a plan or feature that includes messaging/data, messages you send/receive and data that you use will be charged to your account on a per use basis. T-Mobile
monthly4G

T-Mobile's HSPA+ 4G network not available everywhere.

Monthly4G provides wireless service; capable device required to achieve 4G speed.

Prepaid Service: Limited-time offer; all rates, offers, pricing and features subject to change without notice. Taxes and fees additional. Plans provide domestic use only; separate charges apply for international use. Not all features or plans available on all devices; capable device required. Some add-on features may not be available with all plans; not all plans available in all locations. **Unlimited features are only for direct communication between two people.** **Monthly Plans:** Plan features available for 30 days; if sufficient account balance, plans automatically renew at the end of 30 days. If balance is insufficient to renew for 60 days, account will be converted to Pay As You Go. **Pay As You Go:** Service available for 90 days (one year for Gold Rewards) after activation/refill/conversion. After that, your account will be suspended and no service will be available. **Gold Rewards** requires activation of \$100 in refills; you must refill while on Pay As You Go plan to obtain full Gold Rewards benefits. **Pay By The Day:** Service available for 90 days (one year for \$100 refills) after activation/refill. You will be charged for each day you use plan services. Daily rate charges apply when you send or receive any call, including calls to voicemail and other calling features, and when you make or receive any message. Plans with data are charged the daily rate when any data usage occurs, including background data connections or automatic data syncing by phone applications or features. If you sign up for plan more than one time in a day or switch between plans, the daily rate for each plan will be deducted each time. **Day** is 12:00 a.m. to 11:59 p.m., based on time zone associated with your phone number. If call spans multiple days (e.g., starts at 11:58 p.m. and ends at 12:05 a.m.), you may be charged the daily rate for each day. **Plan Changes or Renewals:** When you switch between plans or renew a monthly plan, features or credits associated with your prior plan will no longer be available, and you are not able to switch back to some plans. Some plans will not allow early renewal. **International Talk and Text:** International calling applies to landlines in select countries only and decrements limited plan minutes (domestic coverage rates apply). Unlimited international calling requires qualifying unlimited domestic calling plan. Text messaging applies to mobile phones only; other types of international messages (e.g., picture messages) are charged per message. Calls and text messages must originate in U.S.; standard international roaming rates apply. **BlackBerry Internet Service (BIS):** Qualifying rate plan required; data usage restrictions of rate plan apply to BIS feature. Does not include BES access. **Prepaid General Terms:** Sufficient balance required to use service. Calls rated on a per minute basis and partial minutes rounded up; data usage rounded up to the nearest KB each use. Some plans do not permit use of features after included amounts are depleted. No cash redemption value. Non-refundable. Not responsible if lost or stolen. If you transfer your number to another carrier, your account will be deactivated and no service will be available. Devices sold for use on T-Mobile prepaid service are to be activated on that service, not transferred for resale, modification or export. **Data Usage:** Domestic and international roaming not available. Some plans include specified data speeds. Where indicated, full speeds available up to data allotment; after data allotment used, speeds slowed up to 2G speeds. **Your data session, plan or service may be slowed, suspended, terminated, or restricted** if you use your service in a way that interferes with or impacts our network or ability to provide quality service to other users, if you roam for a significant portion of your usage, or if you use a disproportionate amount of bandwidth. You may not use your plan or device for prohibited uses. **Downloads/Apps:** Additional charges apply; not all downloads/apps available on all devices. Not all sites optimized for mobile browsers. You obtain no rights in downloads; duration of use may be limited; may be stored solely for use with your device. T-Mobile is not responsible for any download lost due to your error. T-Mobile is also not responsible for apps, including download, installation, use, transmission failure, interruption or delay, third-party advertisements you may encounter when using an app, alterations any app may make to the functionality of your device, **including any changes that may affect your plan or service**, or any content or website you may be able to access through an app. **Messaging:** You will be charged for all data sent by or to you through the network, regardless of whether received. Character length or file size of messages/attachments may be limited. T-Mobile is not liable for any failures, delays or errors in any T-Mobile-generated alerts or notifications. **Coverage:** Service is not available everywhere. **Map Information:** Maps approximate anticipated coverage outdoors, which varies by location, may include limited or no coverage areas, and do not guarantee service availability. Within coverage areas, network changes, traffic volume, outages, technical limitations, signal strength, your equipment, obstructions, weather and other conditions may interfere with service quality and availability. Portions of the maps include networks operated by our roaming partners; we are not responsible for their performance. Devices not purchased from T-Mobile or an authorized dealer may not work on our network. **Roaming:** Nationwide roaming refers to usage while on a roaming partner's network within coverage area. International roaming incurs additional charges and refers to usage outside of the U.S. 850 Roaming Coverage requires a multi-band device. Certain devices and features will not work when roaming. If you travel outside of coverage areas, your device will not work. **Abnormal Usage:** Service may be limited or terminated for misuse, abnormal usage, or significant roaming. **Bill Details:** We do not provide bills to prepaid customers. By using service, you accept T-Mobile's **Terms and Conditions (including arbitration provision)**, located at www.T-Mobile.com. See Sales Associate, brochures and **Terms and Conditions (including arbitration provision)** at www.T-Mobile.com for additional information.
