Description of Functionality In Emergency Situations

Back-up Power for Both Voice and Broadband Services

Mud Lake Telephone prides itself on updating and maintaining all its plant and equipment to prevent outages before they happen. If outages do happen, the Company has 24-hour on call staff and alarm reporting systems in place that send notifications to the 24 hour personnel monitoring these systems. The Company certifies that it follows best practices that are designed to allow them to remain functional in an emergency situation through the use of back-up power to ensure functionality in the event of a limited commercial power failure.

Mud Lake utilizes battery back-up systems and standby generators in its central offices. This enables Mud Lake to maintain power during an outage of at least 4 to 8 hours with battery back-up, and for 48 hours utilizing stored fuel. Mud Lake also uses its portable gas powered generator to support the remote cabinets in the network in the event of an extended power outage.

The Company performs exercises to test disaster preparedness on each site's back-up power systems which are tested weekly. Major transport facilities are also tested periodically to ensure failover reliability.

Ability to reroute traffic/data around damaged facilities

Mud Lake Telephone has a folded ring architecture, so it has some redundancy in rerouting exchange traffic between its five exchanges in case of damaged CWF facilities. The five year improvement plan incorporates additional fiber improvements that will make this a full fiber ring architecture/network with complete redundancy in between its exchanges.

The Company is also a partner of the Idaho Syringa Network, which provides a fiber ring throughout southern Idaho and Mud Lake's study area. Being on the Syringa ring network provides the Company the capability of re-routing interexchange traffic and providing continuous service in emergency situations due to damaged facilities.

Capability to manage traffic/data spikes resulting from emergency situations

Mud Lake's trunk routes are monitored by Central Office equipment for usage utilization and management. Mud Lake Telephone takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations, but will continue its best efforts for its networks during such events.

Mud Lake Telephone Cooperative Association
Lifeline Assistance Program

The Lifeline Telephone Assistance Program provides for a discount of the recurring monthly rate for the provision of local residential service for certain low-income customers, which service provides an unlimited number of local calling minutes.

The Lifeline Telephone Assistance Program discount is only available to low-income customers who meet eligibility requirements established by the Federal Communications Commission.

The Federal Communications Commission national eligibility criteria include subscribers with a household income of 135 percent of the federal poverty level or participation in one of the following programs: Supplemental Nutrition Assistance Program, Medicaid, Temporary Aid to Needy Families, Supplemental Security Income, Low Income Home Energy Assistance Program, National Free Lunch or Federal Public Housing Assistance.

Eligible Lifeline customers will receive a monthly discount of $9.25 through the Federal Communications Commission's Lifeline Program and a $2.50 monthly discount through the Idaho Telephone Service Assistance Program on the regular Company rates for residential service. Only one telephone number per household is eligible for a Lifeline discount.

A Lifeline customer may not be disconnected from local service solely for non-payment of toll charges, but the Lifeline customer must continue to pay the local service rates and charges.

As for toll, lifeline subscribers, similar to every Mud Lake Telephone subscriber, are free to choose their own toll usage plans through IXCs that serve Mud Lake. Toll blocking is available at no charge to qualifying Lifeline customers. If a qualifying Lifeline customer voluntarily elects toll blocking service from the Company, where that service is available, the customer will not be required to pay a deposit, if otherwise applicable, to initiate service.

TO APPLY: Potential Lifeline customers must contact a Community Action Partnership office or an Idaho Department of Health and Welfare Regional Office to determine their eligibility to participate in the program.
