CERTIFICATION BY ELIGIBLE TELECOMMUNICATIONS CARRIER
OF COMPLIANCE WITH SERVICE QUALITY AND CUSTOMER
PROTECTION, ABILITY TO REMAIN FUNCTIONAL IN EMERGENCIES,
AND USE OF FEDERAL HIGH-COST SUPPORT.

AFFIDAVIT OF BUSINESS OR CORPORATE OFFICER

The Idaho Public Utilities Commission Order No. 29841 requires that Eligible Telecommunications Carriers (ETC) certify that it is compliant with applicable service quality standards and consumer protection rules; and ETCs must demonstrate the ability to remain functional in emergencies. In addition, the Commission must file an annual certification with the USAC and the FCC that all federal high-cost support provided to ETCs within the State of Idaho will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Accordingly, the undersigned states and verifies under oath the following:

1. I am an officer of OREGON-Idaho UTILITIES, INC., an eligible telecommunications carrier for receiving federal universal service support under section 214(e) of the Telecommunications Act of 1996 in the state of Idaho.
2. I am familiar with the Company's day-to-day operations in the state of Idaho and with the State's service quality standards and consumer protection rules as set forth in Commission Order No. 29841.
3. OREGON-Idaho UTILITIES, INC. is complying with applicable service quality standards and consumer protection rules of the Federal Communications Commission and the Idaho Public Utilities Commission.
4. I certify to the Commission that the Company is able to remain functional in emergencies as set forth in Commission Order No. 29841 and in 47 C.F.R. § 54.201(a)(2).
5. I also certify that all federal universal service support funds received by OREGON-Idaho UTILITIES, INC. during the current calendar year will be used in a manner consistent with section 254(e); that is, for the provision, maintenance, and upgrading of facilities and services for which the support is intended. The company will continue to comply for the period of January 1, 2017, through December 31, 2017, to be eligible for federal universal service fund support.
6. This verification and affidavit is provided to be the Idaho Public Utilities Commission to enable the IPUC to certify to the FCC that federal universal service support received by the eligible carriers in the state will be used in a manner consistent with Section 254(e) of the Telecommunications Act.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission’s public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information _____

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information _____

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Name of Attached Document Listing Required Information _____

Oregon-Idaho Utilities, Inc.
 2016 Progress report on 5Yr. Service Quality improvement plan
 Program Year 2017

This document is an integral part of the Company's 2016 Annual Report, as attached to Form 481. It is in compliance with §54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161) and incorporates all further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was submitted to the requisite regulatory authorities. Questions about this report should be submitted to Doug Musgrave, Manager, at (208) 461-7802 or by e-mail at doug.musgrave@oiutelecom.net.

Oregon-Idaho Utilities, Inc. is a small, rural, privately owned Independent Local Exchange Carrier operating in the states of Oregon and Idaho. OIU is headquartered at 1023 N. Horton St., Nampa, Idaho 83651. We are Oregon and Idaho State Public Utilities Commissions certificated and an Eligible Telecommunications Carrier throughout our authorized service areas in Oregon and Idaho. We are a NECA member company and receive high cost support through Federal and State Universal Service mechanisms.

Oregon-Idaho Utilities advises that the environment in which the Company operates is dynamic, not static. As a result, certain network targets identified in our initial 5 Year Network Improvement Plan filed in 2014 may be modified in response to the fast changing regulatory environment at both the Federal and State levels. The feasibility of each project must be regularly reviewed giving consideration to its implications upon the Company's financial viability in addition to their impacts on our capability to provide required services and maintenance of service quality. When a project is no longer viable because of financial, technological, or vendor related reasons, less costly alternatives of achieving the desired service improvement may be examined. Targets not met or that have changed since the initial 5 Year Plan Filing are identified and reasons provided for those changes.

According to USAC, year to date thru the end of May 2016, OIU has received a total of \$774,993 in Federal Support. The receipt of that support can be broken down by category as follows:

High Cost Loop Fund	\$376,052
Safety Net Additive	\$ 0
Local Switching Support	\$ 0
CAF-ICC Support	\$186,988
ICLS	\$211,953

Universal Service Support funds are used to maintain, upgrade, and improve the Company's network, cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within our authorized study area. USF Support will continue to be included in the Company's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures and to cover operating expenses and fixed costs incurred to obtain capital from lenders. The Company does not segregate USF separately for purposes of tracking its use to cover capital and operating expenditures; USF is expended in the same proportion as its contribution is to the Company's aggregate revenue amount.

The preparation of financial data for the company can take several weeks beyond the close of the financial period. At the preparation of this report, complete financial data had been compiled and

prepared through the end of April 2016. As of April 2016 the proportionate share of USF expenditures to date for 2016 is estimated by the company as follows:
 CAPEX \$21,861 OPEX \$753,132

In the USF/ICC Transformation Order the FCC determined that rural rate of return carriers are only required to extend broadband capabilities within their areas in the existence of a reasonable request for service by a prospective broadband customer. In the Seventh Order of Reconsideration, the FCC clarified the circumstances which constitute a reasonable request. Further section 67 clarifies that a request is considered unreasonable if it required the carrier to undertake plant improvements merely for the purpose of providing a new broadband service if such improvements would likely force the carrier above the \$250.00 per line monthly cap or if the carrier were already experiencing support reductions as a result of that cap.

The 5 Year Plan submitted by OIU as a part of our Project Year 2015 Annual Report was created prior to the FCC's clarification of a reasonable request. As a result, the projects mentioned in that 5 year plan did not take into account that OIU is and has experienced support reductions as a direct result of the \$250.00 per line monthly cap since the cap was enacted. The result was that the projects OIU had planned in their 5 year construction plan were no longer cost effective or practical to pursue. All projects considered for construction by OIU must weigh the potential benefits against the financial impact of the undertaking.

Projects completed in the last half of calendar year 2015 include software and hardware upgrades as necessary to our existing DSLAM equipment to keep our capabilities current. We completed several smaller minor service quality improvement projects to repair/replace cables causing service issues. Emergency power/backup batteries were replaced at many DSLAM and carrier sites as the existing battery plant was no longer able to provide sufficient backup. Non-functioning air conditioning units at two equipment offices were replaced. Because OIU is above the National Average Cost Per Loop and our High Cost Loop Support is still capped, projects completed by OIU in 2016 will likely focus on maintaining our current service quality and capabilities as well.

Capabilities currently exist to provide 4 Mbps downstream and 1 Mbps upstream broadband service to all known community anchor institutions within the OIU study area.

Line 510 Service Quality Standards & Consumer Protection Rules Compliance

Oregon-Idaho Utilities, Inc. complies with the service quality standards in the State of Oregon as defined under OAR 860-034-0390 Retail Telecommunications Standards for Small Telecommunications Utilities. Oregon-Idaho Utilities, Inc. complies with the service quality standards in the State of Idaho as defined under IDAPA 31.41.01 The Telephone Customer Relations Rules. Supervisory personnel periodically monitor activities and information about customer service orders and trouble reports in these states to insure service quality standards are being followed. Frequent interaction between supervisors and field and customer service staff helps to insure that each employee understands their role in following these standards.

Oregon-Idaho Utilities, Inc. complies with all applicable requirements on consumer protection rules including OAR 860-034-0390 Retail Telecommunications Standards for Small Telecommunications Utilities in the State of Oregon, IDAPA 31.41.01 The Telephone Customer Relations Rules in the State of Idaho, 47 CFR Part 64 Subpart U, Customer Proprietary Network Information, and the Federal Trade Commission Red Flag Rules. Employee training is held yearly on the requirements of each of the above as well as general training on disclosure of customer information to unauthorized parties. Supervisory personnel periodically monitor the activities of field and customer service personnel for compliance.

Line 610 Functionality in Emergency Situations Description

Oregon-Idaho Utilities, Inc. has engineered our communications network to remain functional in emergency situations as required by applicable state and federal regulations. Main Central office sites have emergency power generators that run automatically in the event of a commercial power loss. In addition, these sites have battery backup which will allow them to remain functional in the event of a loss of generator power. Second tier remote switch sites and remote concentrator sites have battery backup to continue operation in the event of a commercial power loss and the company has an inventory of portable generators which can be manually deployed to remain operational during extended commercial power loss events. Our class 5 switch and second tier remote sites have emergency stand alone capabilities to continue operation during an isolation event. All main switch, second tier remote switch, and remote concentrator sites have redundant transport paths allowing them to re-route traffic in the event of an emergency.

All switching, concentrator and transport equipment have redundant critical systems to continue operation during an internal card failure. We maintain a Rural Utilities Service recommended standard set of spare cards and parts in house for all mission critical systems. Routine maintenance is conducted on all mission critical systems. OIU also has an automated alarm monitor system in place that alerts company personnel of system malfunctions 24 hours a day, 7 days per week, 365 days per year. Our network was engineered to exceed generally accepted traffic handling standards within the industry to assure continued operation during traffic spikes and during busy hour and busy day events.

Line (1210) – Terms & Conditions of Voice Telephony Lifeline Plans

Oregon-Idaho Utilities does not have any service offerings specific to low income subscribers. Discounts to local service rates are available to qualified low income subscribers through the lifeline assistance program. Oregon-Idaho Utilities offers flat rate local service that includes unlimited calling within the defined local calling area, with access to 911 service, operator services, directory assistance, and Interexchange carriers. Oregon-Idaho Utilities does not offer toll service to our subscribers.

The below media ad was printed on a quarterly basis in The Argus Observer and The Owyhee Avalanche during 2015 informing the public, including those eligible for Lifeline, the availability of Oregon-Idaho Utilities telephone service.

Wishes to inform the public of the availability of its telephone services which are offered in rural portions of Harney County, Malheur County, Oregon and Owyhee County, Idaho.

Oregon-Idaho's local service area includes the Oregon exchanges of Jordan Valley (prefix 541/586), Adrian (541/724) and Ridgeview (541/339) and the South Mountain (208/583) exchange in Idaho. Monthly service rates within these areas vary, depending on service location, and range from:

\$11.65 to \$20.05 plus \$6.50 federal end user charge for residential service, and
 REDACTED – FOR PUBLIC INSPECTION
 \$23.35 to \$34.85 plus \$6.50 federal end user charge for single line business service.

These rates include unlimited calling within the defined local areas, access to 911 services, access to operator services and directory assistance, and interexchange carrier access.

Low income individuals eligible for the Lifeline and Link-up assistance programs may be eligible for discounts from these basic service rates through the Oregon and Idaho telephone assistance programs and may also receive toll call blocking service without charge.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Oregon-Idaho Utilities, Inc.
Nampa, Idaho

We have audited the accompanying financial statements of Oregon-Idaho Utilities, Inc. (the Company, an Oregon corporation) which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of operations, changes in stockholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oregon-Idaho Utilities, Inc. at December 31, 2015 and 2014, and the results of its operations and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 4, 2016 on our consideration of Oregon-Idaho Utilities, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Oregon-Idaho Utilities, Inc.'s internal control over financial reporting and compliance.
