Program Year 2017 - 2016 Submission of 2015

Ross Holt

This document provides a high level description of the measures in place to resolve customer requests for broadband service that were unfulfilled in the prior calendar year.

Blackfoot Telephone Cooperative, Inc. (482235, 483308) and Fremont Telecom Co. dba Fremont Communications (472222) routinely replace digital loop carriers that are not capable of providing a minimum of 4 Mbps download and 1 Mbps upload to new loop carriers and provide Ethernet transport, where appropriate. Additionally, the companies deploy broadband accelerators in line that extend DSL or increase the speed to customers whose requests would otherwise be unfulfilled.

Functionality in Emergency Situations

Program Year 2017 - 2016 Submission of 2015

JB Ray

Field Services Manager

Blackfoot Telecommunications Group

This document provides a high level description of the measures in place to provide functionality in Emergency situations in the 482235, 483308 and 472222 study areas.

Central Offices in all 3 study areas are equipped with backup generators in the event of commercial AC power failures. Fuel supplies for these generators are adequate for 24-36 hours of operation and back up batteries located in each central office provide an additional 6-8 hours of backup power.

All remote subscriber carrier locations are equipped with backup batteries that are capable of providing 8-12 hours of DC power in the event of a commercial AC power failure. We also maintain a pool of portable generators that are used to recharge these batteries if the AC power is not restored prior to the batteries being fully discharged.

Where practical, fiber optic cable routes that provide connectivity to a remote central office back to the host central office have diverse routes to insure uninterrupted operation in the event of a cable cut or failure. If diverse routes are not practical the remote central office is equipped with a "stand alone" function that insures uninterrupted operation within the remoter central office service area.

Data Services Rate Comparability

Program Year 2017 - 2016 Submission of 2015

Michelle Owens

Carrier & Regulatory Specialist

Blackfoot Telecommunications Group

Blackfoot Telephone Cooperative, Inc. (482235, 483308 and Fremont Telcom Co. dba Fremont Communications (472222) have several different voice, broadband and voice/broadband bundles at different prices. To ensure compliance with the FCC's rate comparability benchmark for broadband services, Blackfoot offers a distinct set of broadband service offerings that are priced at rates that are equal to or less than the FCC's service rate comparability benchmark. These prices are revised annually as the FCC adjusts the prices, if necessary, to ensure they remain equal to or less than the rate comparability benchmark.

Lifeline Terms and Conditions

Program Year 2017 - 2016 Submission of 2015

Michelle Owens

Carrier & Regulatory Specialist

Blackfoot Telecommunications Group

For the Program year 2017, Lifeline consumers have the same voice and data options available to them as non-lifeline consumers. Rates can be reviewed in sections 700 and 710 of the 481 filing. Consumers wishing to purchase long distance services have a selection of service options to ensure that the per minute pricing meets their needs. Eligible lifeline consumers have a lifeline discount added to their account after eligibility has been determined.

Broadband Reasonable Request

Program Year 2017 - 2016 Submission of 2015

Jason Williams
